

Evening News Review.

18TH YEAR. NO. 150.

EAST LIVERPOOL, O., TUESDAY, DECEMBER 10, 1901.

TWO CENTS.

LARGEST MEETING YET HELD BY POTTERY MANUFACTURERS

Convention at Pittsburg Is Bound
to Be a Most Important One.

SURPRISES ARE IN STORE

According to the Predictions of
Delegates From the
East.

J. G. LEE WILL BE PRESIDENT

And H. A. Keffer Secretary of the
Organization—East Liverpool's Im-
portance Apparent—Those Pres-
ent at the Gathering.

From a Staff Correspondent.

Pittsburg, December 10.—The twenty-third annual convention of the United States Potters' association is in session at the Hotel Henry, in this city. Unless all signs fail it will be one of the most important meetings ever held by the organization.

The convention assembled at 11:30. The attendance was much larger than was anticipated. President Charles Howell Cook, of Trenton, presided and the first gathering was devoted mainly to the appointment of committees and other work calculated to dispose expeditiously of the large volume of business to come before the association.

It can be announced most positively, at this early stage, that Joseph G. Lee, general manager of the Knowles, Taylor & Knowles pottery, of East Liverpool, will be the choice of both the east and the west for president to succeed Charles H. Cook. The present secretary, H. A. Keffer, of the Severs China company, East Liverpool, will doubtless succeed himself, as he has the work well in hand and it is not thought advisable to make a change now.

The representatives from Trenton and other eastern points arrived at Pittsburg at 6:30 this morning, and were on the ground several hours before the East Liverpool delegation reached the city.

If there exists a doubt in the minds of any one as to the importance of East Liverpool as a factor in the great industry, he need only scan Secretary Keffer's membership roll to be convinced of his error. It shows that the East Liverpool men almost hold the controlling power.

Those of the manufacturers who made the prediction that the meeting this year would be unimportant are likely to change their minds ere the convention has progressed very far.

From what could be gathered in conversation with several of the eastern delegates before the session opened, it is probable that a number of surprises will be sprung in the course of the proceedings.

The East Liverpool representatives have secured a parlor in the hotel for caucus and conference purposes.

When President Cook called the meeting to order it was found that the attendance was much larger than ever before at the opening of a session. Secretary H. A. Keffer took up the difficult task of forming a roll of members, and when it was completed it was found that scarcely a pottery in the United States was unrepresented. Those in attendance are:

J. G. Lee, Geo. C. Thompson, H. P. Knoblock, W. E. Wells, L. I. Aaron, Charles Aaron, Monroe Patterson, W. W. Harker, Geo. W. Ashbaugh, Chas. C. Ashbaugh, W. L. Smith, William Brunt, Wm. S. Brunt, Mr. Hickman, J. T. Smith, W. L. Taylor, Chas. F. Goodwin, Geo. C. Murphy, H. A. Keffer, East Liverpool.

John T. Moore, Thomas Sweetman, J. G. Muchhead, Moses Collier, Howard Moses, Daniel Willits, Joseph Deacon, Charles E. Morris, E. C. Stover, Charles H. Cook, Trenton.

John Arbenz, Chillicothe, O.

Chris Brockman, Cincinnati.

Mr. Davis, New Castle.

F. A. Sebring, Sebring.

Henry Brunt, Baltimore.

Joseph Pass, Syracuse.

Joseph Cook, R. H. Kent, Akron.

Chas. Franzheim, Wheeling.

J. W. Burgess, Hockessin, Pa.

E. N. Pearson, an old-time potter, now selling clay, Trenton.

Carl Trummer, New York, clinical

man; W. H. Schuyler, Crocker and Glass Journal, New York.

W. H. Barker and Mr. Brown, trades papers, Pittsburg.

The banquet will be held this evening.

THE NATIONAL GUARD

OFFICERS MET AT COLUMBUS TO
DISCUSS ITS NEEDS.

Question of Legislation Deferred
Until Congress Shall
Act.

Columbus, December 10.—(Special)—The executive and legislative committees of the Ohio National Guard association met here yesterday and discussed matters pertaining to needed legislation for the Guard. It was decided to ask the legislature to create a deficiency board, to supplement the operation of the board of examiners of officers-elect.

In anticipation of the fact that the national congress will enact legislation with reference to the military of the various states it was decided to recommend no legislation along this line, aside from the action mentioned. Delegates to represent Ohio at the next annual meeting of the national association at Washington were appointed. Colonel Vollrath, commander of the Eighth regiment, is a member of the executive committee of the association. Major Critchfield is an active worker on the legislative committee.

Alluding to the recent first annual reunion of the Eighth Ohio soldiers at Akron, Colonel Vollrath said the gathering was one of the pleasantest he had ever attended. He pronounced as absurd recent reports that one or more companies were to be dropped in consequence of a lack of interest on the part of its members.

Several weeks ago a report was wired out from Warsaw, Ind., announcing that a wonderful revival was in progress there and that the town was so wrought up with religious excitement that even saloonkeepers were becoming converted. The strangest thing about the whole business was that Major Fred S. Marquis, of the Eighth regiment, of Mansfield, was named as being the cause of all this upheaval. This was an interesting bit of information. Colonel Vollrath has solved the mystery. As Major Marquis is the possessor of a good voice an evangelist hired him to accompany him on his trip through Indiana. Some enterprising correspondent, knowing the major's connection with the "President's Own," in giving the news of the revival, named Major Marquis as the leader.

LAST INSPECTION

Sanitary Officer Burgess Informed
That the Analyzation of River
Water Will Cease.

Sanitary Officer Burgess today received from the state board of health the bottles which he has been filling with river water for monthly tests. The state chemist explains that he desires the samples to be taken from the river during the present rise.

In the past the sanitary officer has been sending one sample taken direct from the river and other from the city water supply after filtration. At the present time the water used for city purposes is pumped directly into the mains without having been filtered, so that the two samples he sends to the health department this time will be alike.

The chemist states that the present samples will be all that is wanted for some time.

COLORED GIRL'S FORTUNE

Lottie Stewart, Colored, of Mingo,
Heiress to an English
Estate.

Steubenville, December 10.—Miss Stewart, a colored girl of Mingo Junction, has received a letter notifying her that through the death of her uncle, who was a slave and was taken to England, where his master decided him property, that it has been bequeathed to her, consisting of \$2,000 and 100 acres of land.

Examiners at Work.

Lisbon, December 10.—(Special)—An examining board is at work on the county commissioners' books for the year just closing. By virtue of his office Prosecutor Brookes is one member of the board. The other members are Charles Boyd, of Wells-ville, and John Kerr, of East Liverpool. They were appointed by Judge

PRISONER'S WIT AMUSED POLICE

He Was an Englishman and Didn't
Relish Being Arrested By
An Irishman.

FLASHED A BANK NOTE

Which He Said Called for 50 Pounds,
But Which Was Worthless—Mike
Malone Wants to Fight for the Bo-
ers—Notes in Police Court.

Officer Morris last night arrested Robert Osmond, an English giant, who recently came to this city. He was drunk and raising a disturbance on lower Broadway. He made no resistance when the patrol arrived and Officer Mahoney took the prisoner to jail.

While Chief Thompson was searching the Englishman that worthy remarked that he had no complaint to make, only that he had been arrested by an Irishman. Officer Mahoney was the one referred to, but he is used to flattering compliments and paid no attention to the prisoner.

No money was found in Osmond's pockets and just as the chief was about to give up the search, the subject drew forth from the interior of his coat a crumpled piece of paper. "Here," he said, "take this and keep it for me till morning. It's a check on the bank of England for £50."

Chief Thompson made a hasty examination of the paper, which was nothing more than a worthless newspaper clipping. Osmond was hustled into a cage, where he remained until this morning when Mayor Davidson fined him \$5 and costs. Friends of the man paid the assessment and he was released.

Mike Malone remains in durance vile with poor prospects of getting the cash necessary to secure his release. He has become very penitent and makes the mayor a new promise every time he sees him. Mike's latest proposition with a view of getting his freedom is that he desires to communicate with Oom Paul Kruger and enlist in the Boer army. He says he is tired of fighting "booze" and wants to try his skill with a musket or sword. His case is under advisement.

James Connors is keeping Mike company. He is also unable to induce any of his friends to come to his assistance and has become reconciled to his fate. All he fears is that he may contract a disease while drinking water during his incarceration.

Mitch Phillips was more fortunate than Connors or Malone. His father paid his fine and his liberty was restored to him.

BASKET BALL

Teams to Be Chosen By Y. M. C. A.
Captains And Games
Arranged.

The captains for the Y. M. C. A. basketball league were chosen last evening. They are Richard Rigby, C. F. Armour, M. Green and William Louthan. Teams of five men each will be chosen at once by the captains. Friday evening the first game will be played between Green and Louthan's men.

Friday, December 20, the Carnegie Steel company basketball team, of Pittsburg, will be here and contest a picked organization of the East Liverpool Y. M. C. A. It is thought the association will be able to develop much interest in the sport during the winter.

W. L. SMITH SUES

The East Liverpool Railway Com-
pany for Alleged Encroachment
on His Land.

Lisbon, December 10.—(Special)—Wm. L. Smith has brought suit against the East Liverpool Railway company. He alleges that the company crossed his land and has occupied it for a number of years. He asks judgment for the possession of the land and asks that further relief may be thought proper.

In the answer filed by the defendant all allegations of the plaintiff are denied, a judgment for the costs is asked.

The land was formerly owned by David McDonald.

Marriage Licenses.

Lisbon, December 10.—(Special)—Marriage licenses have been granted to Worthington G. Ray, of Salem and Emma L. Borton, of Butler township; Wilfred Elkins and Margaret Walters, of East Liverpool.

MINING FIGURES OF THIS COUNTY

Interesting Statistics Showing the
Condition of the Coal
Industry.

PROMINENT OHIOAN DEAD

Was the Brother of a Former Lisbon
Newspaper Man—Sidney Burrows
Is Padded for Talking in the
Penitentiary.

From a Staff Correspondent.

Columbus, Dec. 10.—The chief clerk in the office of the state commissioner of labor is now at work preparing the mining statistics of the state for the year ending March 31, 1901. He has completed the report for Columbiana county, and it presents some interesting totals. A comparison of the figures for the year with those of the preceding year is not possible for the reason that only incomplete returns were received for the latter period.

The average daily wage of the Columbiana county miner during the year ending March 31, 1901, was \$1.75, or \$362.67 for the year. They were employed fairly steadily, having worked 231 days out of the 395 working days of the year. There are 44 mines in the county and the total number employed in these is 1,013. Fourteen mines are small and employ three or less. The aggregate capital stock of the mines is \$653,440. The production of coal mined during the year was as follows: Screen lump, 99,944 tons; run of mine, 286,976 tons; other grades, 48,374 tons; total, 435,294 tons. The average mining rate per ton for screen lump and run of mine was 70 cents and four mills. The amount paid employees for yardage and entries was \$32,960, and for "dead work," \$10,131.81.

The expenses of the operators for repairs was \$30,991.30 and the amount deducted from the earnings of the miners for such supplies as oil, powder, etc., and for sharpening tools was \$18,815.60. The market value of the several grades of coal was as follows: Screen lump, \$1.26; steam lump, \$1.17; run of mine, \$1.09; other grades, \$0.71. The report shows that Salineville is the only place in the county where coal is mined by electrical machinery. One mine is so equipped.

Owing to the fact that the majority of Columbiana county miners have been on strike since last April, the next annual report from the county will not show as satisfactory state of affairs as the present one reveals.

Word has been received here of the death of John Milton Armstrong, a former resident of Lisbon, and native of Columbiana county, which occurred at Ticolata, Fla., on Dec. 2. He was a brother of Major W. W. Armstrong, who edited the Ohio Patriot at Lisbon before the civil war, and who was secretary of state from 1863 to 1865. He now resides in Cleveland. John Milton Armstrong was for years chief clerk in the auditor of state's and secretary of state's offices, and a resident of Columbus for many years. His early life was spent in Lisbon, but as it has been possibly a quarter of a century or more since he left there only the older residents will remember him. His brother, Major Armstrong, is the only surviving member of the family.

Sidney Burrows, the irrepressible, whose home is in East Liverpool, and who is serving a short term sentence in the penitentiary, is in trouble again. He persists in talking while at work, which is contrary to the rules, and for this offense he was padded and given a dose of the water treatment, with a day's confinement in solitary thrown in. This is the third time this form of punishment has been meted out to Sidney during the past few months. His escapades are numerous. Only a short time ago he attempted to hurl another convict from the third story of a building to the ground, but was prevented from doing so by a guard. On another occasion, recently, he was found with a quantity of tobacco on his clothes which he had purloined from a prison workshop.

President Outwaite, of the Ohio Society for the Prevention of Tuberculosis, has completed the list of committees upon whom a great deal of the work of the society will devolve. A number of eastern Ohio persons are appointed on these committees, among these being the following: Committee on auxiliary societies, Joseph Hartzell, Canton; Dr. P. W. Welker, Alliance. Committee on public institu-

TWO OTHER BIG INDUSTRIES ARE PROMISED FOR IRONDALE

tion, Dr. T. Clarke Miller, Massillon. Committee on lecture bureau, E. A. Jones, Massillon; Dr. J. F. Marchand, Canton. Committee on workshops and factories, Dr. J. F. Lahmers, Barberton. These gentlemen were present at the meeting at which the society was organized.

Despite the precautions taken, it appears that the Lake county authorities were victimized by the Richmond club against which steps were taken to prevent it pulling off an advertised prize fight. The aid of Governor Nash and Attorney General Sheets was invoked in the matter, and it was presumed that the bout had been suppressed. In a degree this was true. The fight was scheduled to take place one day last week, but the sheriff, acting under orders from the governor, appeared and stopped it. The club stole a march on the authorities last Saturday night and held the fight. Steps will be taken to secure the indictment of the club members and the principals.

GEORGE T. BLAKE.

HEAVY WIND STORM

MUCH DAMAGE DONE IN ALL
PARTS OF THE CITY.

Trees Blown Down and Roofs And
Chimneys Overturned—Telephone
Lines Suffered

Many residents of the city were frightened as a result of a heavy wind storm which commenced shortly after midnight and which continued for about an hour with threatening fury. The residents of the farming communities north of town were also alarmed for a time, as the storm spent the greater part of its force in that section.

A number of telephone poles were blown down on the Northside and considerable damage also done to the lines in the West End. A tree was blown down on the Lisbon road and another on Seventh street. A chimney on the residence of Mayor Davidson on Fifth street was demolished and a portion of the roof of a house on Trentvale street torn off.

Other damage was done in various parts of the city, but fortunately there was no loss of life or serious injury sustained by anybody.

TO LICENSE BARBERS

A Bill With That Object to Come
Before the Leg-
islature.

A bill to license barbers is one of the measures which the Cuyahoga delegation will be asked to father in the coming session of the legislature. Behind the bill is W. E. Klapetsky, the general secretary and treasurer of the International Barbers' union. The bill which he has in mind is for the purpose of allowing only competent men to practice the tonsorial art and to obtain the desired end he proposes to have a commission appointed by the state, whose duty it will be to issue licenses.

The certificates would be issued only to competent men if the bill goes through and each will pay a fee of \$1 a year for the privilege of working. It is said that there are 27,000 barbers in this state and from the revenues obtained from their licenses the expenses of the commission and the maintenance of a chair of dermatology in the state university is expected to be paid.

The commission, according to Mr. Klapetsky's idea, will be composed of one physician and two barbers. The barbers will have charge of the practical end of the matters and will see that licenses are issued only to skillful workmen, while the sanitary end will be cared for by the doctor.

RE-APPOINTMENT

Recommended for Eighteenth Dis-
trict Postmasters By Con-
gressman Taylor.

The terms of no less than six presidential postmasters in the Eighteenth congressional district of Ohio expire in the near future, and Representative Taylor has recommended the reappointment of all the postmasters as follows:

Canton, George B. Freas, salary \$3,200 a year; Youngstown, O. P. Shaffer, salary, \$3,100 a year; Alliance, B. F. Trescott, salary \$2,500 a year; Leetonia, Henry D. Weaver, salary \$1,600 a year; Columbiana, Ed I. Snyder, salary \$1,500 a year; Louisville, John Kagey, salary \$1,300 a year.

Removal of the Tin Plate Mill
Will Not Kill the Staid
Old Town.

BIG COAL AND BRICK WORKS

To Be Established By the Norris
Mining and Manufac-
turing Company.

TRACT OF 950 ACRES LEASED

Contracts for the Necessary Equip-
ment to Be Let at Once—Plants
Will Employ 1,000 Men And Will
Be Running By April 1.

Irondale, December 10.—The removal of the tin plate mill is not going to kill Irondale as an industrial town. There are other enterprises promising well for this locality.

The Norris Mining and Manufacturing company, recently incorporated under the laws of Ohio, will soon develop of field of 950 acres of coal and fire clay near Irondale. A double tiple to be installed will have a capacity of 3,000 tons daily and a brick plant to be established will have a capacity of 75,000 daily in face or building brick, and what is known as No. 2 fire brick.

McDonald & Andrews, of Pittsburg, are acting as constructing engineers for the new company, and the contracts will shortly be let through them for the opening of the coal property, electrical equipment and the tiple and power works of the plant. The plant is to be put in operation the first of next April and will employ about 1,000 men. There are three seams of coal running from three to five feet in thickness, and there are beds of fire clay in connection about 14 feet thick. The entire combined veins of coal and fire clay will be developed at once.

The Norris company is organized with the following officers and directors: J. H. Norris, president and treasurer; S. J. Burnside, of S. J. Burnside & Co., secretary and general manager; F. N. Norris, Charles W. Walper and Henry N. W. Fleckner. All are Pittsburgers, except F. N. Norris, who is a resident of Sebring. Headquarters have been opened in the Standard building, Wood street, Pittsburg.

The company owns about 169 acres of surface property at the site for the operations, where the brick, power and other plants will be located. The Cleveland & Pittsburg railroad runs through the property of the company, which starts with a paidup capital of \$150,000.

A WELLSVILLE HUSBAND

Granted Divorce From His Wife,
Damaging Stories
Told.

Lisbon, December 10.—(Special)—The divorce suit of Isaac G. Keeling against Lillian A. Keeling, of Wells-ville, was called at 1 p. m. Mrs. Keeling, Leroy Barr, Miss Rilla Treese and A. C. Van Dyke gave testimony as to the good character of Keeling and the bad character of his wife. Leroy Barr, who runs a saloon, testified rather reluctantly that Mrs. Keeling had met several men at different times, in his wine room. Barr admitted rather reluctantly having written several letters asking her to come to his place, but was very prompt to assert that these were written for other men.

The testimony also proved that Keeling's one child, a boy of 8, had been neglected by his mother and that she deserted her husband about two years ago.

A decree was granted and Keeling given the custody of the child.

A Holdup at Salem.

Salem, December 10.—Two men with a revolver tried to hold up John Hopner, night fireman at the pottery, as he was returning home late. He made a bluff at drawing a revolver, although he had none, and put them to flight.

Sale Confirmed.

Lisbon, December 10.—(Special)—Michael J. Martin, administrator, has reported the sale of two lots in Leetonia belonging to the estate of Martin Gannon. The consideration is \$125. The sale was confirmed and a deed ordered.

A comparison of the figures for the year with those of the preceding year is not possible for the reason that only incomplete returns were received for the latter period.

The average daily wage of the Columbiana county miner during the year ending March 31, 1901, was \$1.75, or \$362.67 for the year. They were employed fairly steadily, having worked 231 days out of the 305 working days of the year. There are 44 mines in the county and the total number employed in these is 1,013. Fourteen mines are small and employ three or less. The aggregate capital stock of the mines is \$653,440. The production of coal mined during the year was as follows: Screen lump, 99,944 tons; run of mine, 286,976 tons; other grades, 48,374 tons; total, 435,294 tons. The average mining rate per ton for screen lump and run of mine was 70 cents and four mills. The amount paid employees for yardage and entries was \$32,969, and for "dead work," \$10,131.81.

The expenses of the operators for repairs was \$30,991.30 and the amount deducted from the earnings of the miners for such supplies as oil, powder, etc., and for sharpening tools was \$18,815.60. The market value of the several grades of coal was as follows: Screen lump, \$1.26; steam lump \$1.17; run of mine, \$1.09; other grades, \$0.71. The report shows that Salineville is the only place in the county where coal is mined by electrical machinery. One mine is so equipped.

Owing to the fact that the majority of Columbiana county miners have been on strike since last April, the next annual report from the county will not show as satisfactory state of affairs as the present one reveals.

Word has been received here of the death of John Milton Armstrong, a former resident of Lisbon, and native of Columbiana county, which occurred at Ticolata, Fla., on Dec. 2. He was a brother of Major W. W. Armstrong, who edited the Ohio Patriot at Lisbon before the civil war, and who was secretary of state from 1863 to 1865. He now resides in Cleveland. John Milton Armstrong was for years chief clerk in the auditor of state's and secretary of state's offices, and a resident of Columbus for many years. His early life was spent in Lisbon, but as it has been possibly a quarter of a century or more since he left there only the older residents will remember him. His brother, Major Armstrong, is the only surviving member of the family.

Sidney Burrows, the irrepressible, whose home is in East Liverpool, and who is serving a short term sentence in the penitentiary, is in trouble again. He persists in talking while at work, which is contrary to the rules, and for this offense he was padded and given a dose of the water treatment, with a day's confinement in solitary thrown in. This is the third time this form of punishment has been meted out to Sidney during the past few months. His escapades are numerous. Only a short time ago he attempted to hurl another convict from the third story of a building to the ground, but was prevented from doing so by a guard. On another occasion, recently, he was found with a quantity of tobacco on his clothes which he had purloined from a prison workshop.

President Outwaite, of the Ohio Society for the Prevention of Tuberculosis, has completed the list of committees upon whom a great deal of the work of the society will devolve. A number of eastern Ohio persons are appointed on these committees, among these being the following: Committee on auxiliary societies, Joseph Hartzell, Canton; Dr. P. W. Welker, Alliance. Committee on public institu-

TWO OTHER BIG INDUSTRIES ARE PROMISED FOR IRONDALE

tion, Dr. T. Clarke Miller, Massillon. Committee on lecture bureau, E. A. Jones, Massillon; Dr. J. F. Marchand, Canton. Committee on workshops and factories, Dr. J. F. Lahmers, Barberton. These gentlemen were present at the meeting at which the society was organized.

Despite the precautions taken, it appears that the Lake county authorities were victimized by the Richmond club against which steps were taken to prevent it pulling off an advertised prize fight. The aid of Governor Nash and Attorney General Sheets was invoked in the matter, and it was presumed that the bout had been suppressed. In a degree this was true. The fight was scheduled to take place one day last week, but the sheriff, acting under orders from the governor, appeared and stopped it. The club stole a march on the authorities last Saturday night and held the fight. Steps will be taken to secure the indictment of the club members and the principals.

GEORGE T. BLAKE.

HEAVY WIND STORM

MUCH DAMAGE DONE IN ALL
PARTS OF THE CITY.

Trees Blown Down and Roofs And
Chimneys Overturned—Telephone
Lines Suffered

Many residents of the city were frightened as a result of a heavy wind storm which commenced shortly after midnight and which continued for about an hour with threatening fury. The residents of the farming communities north of town were also alarmed for a time, as the storm spent the greater part of its force in that section.

A number of telephone poles were blown down on the Northside and considerable damage also done to the lines in the West End. A tree was blown down on the Lisbon road and another on Seventh street. A chimney on the residence of Mayor Davidson on Fifth street was demolished and a portion of the roof of a house on Trentvale street torn off.

Other damage was done in various parts of the city, but fortunately there was no loss of life or serious injury sustained by anybody.

TO LICENSE BARBERS

A Bill With That Object to Come
Before the Leg-
islature.

A bill to license barbers is one of the measures which the Cuyahoga delegation will be asked to father in the coming session of the legislature. Behind the bill is W. E. Klapetsky, the general secretary and treasurer of the International Barbers' union. The bill which he has in mind is for the purpose of allowing only competent men to practice the tonsorial art and to obtain the desired end he proposes to have a commission appointed by the state, whose duty it will be to issue licenses.

The certificates would be issued only to competent men if the bill goes through and each will pay a fee of \$1 a year for the privilege of working. It is said that there are 27,000 barbers in this state and from the revenues obtained from their licenses the expenses of the commission and the maintenance of a chair of dermatology in the state university is expected to be paid.

The commission, according to Mr. Klapetsky's idea, will be composed of one physician and two barbers. The barbers will have charge of the practical end of the matters and will see that licenses are issued only to skillful workmen, while the sanitary end will be cared for by the doctor.

RE-APPOINTMENT

Recommended for Eighteenth Dis-
trict Postmasters By Com-
gressman Taylor.

The terms of no less than six presidential postmasters in the Eighteenth congressional district of Ohio expire in the near future, and Representative Taylor has recommended the reappointment of all the postmasters as follows:

Canton, George B. Freas, salary \$3,200 a year; Youngstown, O. P. Shaffer, salary, \$3,100 a year; Alliance, B. F. Trescott, salary \$2,500 a year; Leetonia, Henry D. Weaver, salary \$1,600 a year; Columbiana, Ed I. Snyder, salary \$1,500 a year; Louisville, John Kagey, salary \$1,300 a year.

Removal of the Tin Plate Mill
Will Not Kill the Staid
Old Town.

BIG COAL AND BRICK WORKS

To Be Established By the Norris
Mining and Manufac-
turing Company.

TRACT OF 950 ACRES LEASED

Contracts for the Necessary Equip-
ment to Be Let at Once—Plants
Will Employ 1,000 Men And Will
Be Running By April 1.

Irondale, December 10.—The removal of the tin plate mill is not going to kill Irondale as an industrial town. There are other enterprises promising well for this locality.

The Norris Mining and Manufacturing company, recently incorporated under the laws of Ohio, will soon develop of field of 950 acres of coal and fire clay near Irondale. A double tippie to be installed will have a capacity of 3,000 tons daily and a brick plant to be established will have a capacity of 75,000 daily in face or building brick, and what is known as No. 2 fire brick.

McDonald & Andrews, of Pittsburg, are acting as constructing engineers for the new company, and the contracts will shortly be let through them for the opening of the coal property, electrical equipment and the tippie and power works of the plant.

The plant is to be put in operation the first of next April and will employ about 1,000 men. There are three seams of coal running from three to five feet in thickness, and there are beds of fire clay in connection about 14 feet thick. The entire combined veins of coal and fire clay will be developed at once.

The Norris company is organized with the following officers and directors: J. H. Norris, president and treasurer; S. J. Burnside, of S. J. Burnside & Co., secretary and general manager; F. N. Norris, Charles W. Walper and Henry N. W. Fleckner. All are Pittsburgers, except F. N. Norris, who is a resident of Sebring. Headquarters have been opened in the Standard building, Wood street, Pittsburg.

The company owns about 169 acres of surface property at the site for the operations, where the brick, power and other plants will be located. The Cleveland & Pittsburg railroad runs through the property of the company, which starts with a paidup capital of \$150,000.

A WELLSVILLE HUSBAND

Granted Divorce From His Wife.
Damaging Stories
Told.

Lisbon, December 10.—(Special)—The divorce suit of Isaac G. Keeling against Lillian A. Keeling, of Wells-ville, was called at 1 p. m. Mrs. Keeling, Leroy Barr, Miss Rilla Treese and A. C. Van Dyke gave testimony as to the good character of Keeling and the bad character of his wife. Leroy Barr, who runs a saloon, testified rather reluctantly that Mrs. Keeling had met several men at different times, in his wine room. Barr admitted rather reluctantly having written several letters asking her to come to his place, but was very prompt to assert that these were written for other men.

The testimony also proved that Keeling's one child, a boy of 8, had been neglected by his mother and that she deserted her husband about two years ago.

A decree was granted and Keeling given the custody of the child.

A Holdup at Salem.
Salem, December 10.—Two men with a revolver tried to hold up John Hopper, night fireman at the pottery, as he was returning home late. He made a bluff at drawing a revolver, although he had none, and put them to flight.

Sale Confirmed.

Lisbon, December 10.—(Special)—Michael J. Martin, administrator, has reported the sale of two lots in Leetonia belonging to the estate of Martin Gannon. The consideration is \$125. The sale was confirmed and a deed ordered.

EAST END

THE WALL FELL

WIND CAUSED DAMAGE AT THE LAUGHLIN PLANT.

Tore Down Bricks on the New Addition, Necessitating Costly Repairs.

Considerable damage was done last evening to the new addition to Laughlin's No. 2 pottery that is being constructed on the north side of the main building. The second story wall has been up for a few days, but the masonry is still green.

Braces for the roof have been built, but the force of the wind was too much for the wall to stand. Shortly after the workmen had left, a section about 40 feet in length fell down, covering the railroad switch with brick and mortar. Fortunately no one was near. Had the incident occurred sooner there is no question but what several lives would have been lost.

It will cost a few hundred dollars to rebuild the wall.

LOG ON HIS LEG

W. L. Watson Gets a Broken Limb From a Peculiar Accident.

A serious accident befell W. L. Watson this morning. He was adjusting the chain to a log that had been swung beneath his wagon when there was a slip and the log fell on his left leg, breaking the large bone about three inches below the knee.

He was taken to his home north of Smith's Ferry and a physician summoned, who reduced the fracture.

Arranging for Christmas.

A meeting of the Sunday school officers of the Erie street M. E. church was held last evening to arrange a Christmas program. The entertainment will be an elaborate one. The members of the school will bring presents for their friends and there will be a treat for the children. The date of the exercises has not yet been fixed.

Broke Down the Wires.

A tree toppled from the steep incline along the C. & P. tracks near Ralston's crossing this morning and hung on the telegraph wires. Four wires were broken and the telegraph service of the road was out of order for about an hour, until linemen could visit the spot and repair the wires.

EAST END AFFAIRS.

James Lawrence left this morning for Dayton.

John Hardy left this morning for New Brighton, Pa.

F. B. Chambers is transacting business in Pittsburg.

The Ohio Valley council, O. U. A. M., No. 23, will hold a social and smoker this evening.

Raymond McVay, who has been quite sick at his home in Helena, is able to be out.

John Hendershott has moved from Mulberry street into one of T. F. Anderson's new houses on Boyce avenue.

R. W. Lemmon has moved from the corner of Locust and Mulberry into one of Dr. Marshall's houses on Mulberry street.

Miss Maud L. Carman, teacher in the Horace Mann building, is sick and Miss Effie McKinnon is temporarily conducting her classes.

Boyce avenue is impassable south of Pennsylvania avenue. A drain is being put in and the stone aqueduct has not as yet been covered.

Abner Martin, the aged man who suffered a stroke of paralysis 10 days ago at his home on Railroad street, has almost recovered from the malady.

How to Prevent Croup.

It will be good news to the mothers of small children to learn that croup can be prevented. The first sign of the disease is hoarseness. A day or two before the attack the child becomes hoarse. This is soon followed by a peculiar rough cough. Give Chamberlain's Cough Remedy freely as soon as the child becomes hoarse, or even after the cough appears, and it will dispel all symptoms of croup. In this way all danger and anxiety may be avoided. That remedy is used in this way by many thousands of mothers, and has never been known to fail. It is, in fact, the only remedy that can always be depended upon, and that is pleasant and safe to take. For sale by Alvin H. Bulger, druggist.

WOMAN WITH A HATCHET

Emma Lucas, of Glendale, Imitating Mrs. Nation, Proves a Terror to Saloonkeepers.

Moundsville, W. Va., Dec. 10.—Glendale, just above this city has its Carrie Nation, but, unlike the Kansas woman, the Glendale eagle-eyed guardian of the people's rights, never wanders from her own locality. Encouraged by the success following the sale of a few kegs of beer on Thanksgiving day, a man in the village decided to open a speakeasy, but wishing to have the people on his side, he wisely consulted Emma Lucas, the eagle-eyed guardian, and assured her that he had a genuine county license.

She inquired from the proper county officials and found that the speak-easy man had been using "hot air" as she termed it. That settled it. She took down the ax with which she knocked all kinds of "blue ruin" out of a local plant last spring, and found that its edge had lost none of its keen reasoning powers during its long idleness. When it became known that Emma Lucas was prepared to carry the war into Africa, the speak-easy man took to the woods.

PRONOUNCED VIEWS

On Temperance Led to Trouble With a Toronto Pastor.

Toronto, December 10.—The troubles in the Presbyterian church that have culminated in the resignation of Rev. E. B. McIlvaine, the pastor, arose, it is said, over the pronounced views of the minister on the subject of temperance.

The frequently expressed opinions of the pastor became objectionable to some of the wealthy members of the congregation. Recently the pastor obtained permission from the trustees to hold a temperance meeting in the church, and the speakers dealt severely with liquor men. This brought the trouble to a head. A move was made to cut the pastor's salary. This he resented and he offered his resignation. The trouble will be thrown into the next meeting of the Steubenville presbytery in February and the matter fully ventilated.

POPULARITY IMPOSSIBLE

An Akron Councilman Will Become a Reformer Regardless of Consequences.

Akron, Dec. 10.—"There is no glory in holding public office. I know now that a public official cannot do his duty and be popular."

City Councilman J. W. Walker made this statement and declared his intention of bringing about certain reforms regardless of consequences.

"I cannot be re-elected," he said. "I did not know what I was getting into when I ran for office. I wish I had kept out of it."

Walker is a pillar of the Methodist Episcopal church here, and was a captain in the Salvation Army several years ago.

REFUSED TO RESIGN

Policeman Robert G. Green at Alliance Defies the Council of That City.

A dispatch from Alliance to the Cincinnati Enquirer says: "Robert G. Green, the police officer who was with the men held up by the three highwaymen at H. E. Bower's saloon a few days ago, and who was subsequently requested to resign by the city council, has refused to relinquish his position and continues on duty in open defiance of the 'city fathers.'"

"Green admits being engaged in a game of 'cinch' at the saloon, but claims that he was off duty at the time."

Fully Insured.

You and we are both insured against loss, for the manufacturers agree to refund the purchase price if you do not realize what they claim for Dr. Caldwell's Syrup Pepsin in cases of Constipation, Indigestion, Sick Headache or Stomach Troubles. Sold by W. & W. pharmacy.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop formation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. Your only need a few does of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. You can get Dr. G. G. Green's reliable remedies at Charles F. Craig's, Foutts Bldg., East Liverpool, O.

Get Green's special almanac.

GOING TO LIBERIA

Fleet Walker, a Steubenville Negro, Will Publish His Paper There.

Steubenville, December 10. — Always earnest in his advocacy of the emigration of the American negro to Liberia, where they will have an equal chance for honor and position and not have prejudice to combat in the life struggle, M. Fleet Walker, a well-known negro resident of this city, has accepted an invitation to move to Liberia with his paper, and, with his family will remove there as soon as he can arrange his affairs. He will take a printing press and newspaper outfit with him, according to present plans, and edit the Equator there.

Fleet Walker is probably one of the best educated of the negro residents of this valley. He is a graduate of Oberlin college. He was some years ago connected with some of the best base ball teams in the country. He has been on the mail service, where efficiency and intelligence are demanded. He has lately been publishing an Afro-American newspaper, the Equator, and his articles are ably written and teem with advanced thought on the negro problem and how to avoid it.

Recently he received a letter from R. A. Wright, a senator of the Republic of Liberia, on the west coast of Africa, speaking in high terms of his paper and inviting him to come to Africa with his printing outfit, the senator binding himself in behalf of the government to defray the expense incurred. Senator Wright regards emigration as the only rational solution of the race problem in the United States.

COUNTY AND NEIGHBORHOOD

A big golden eagle was caught alive near Cadiz.

Nathan King, near Lisbon, lately celebrated his 86th birthday with a family party.

The warehouse of the American Sheet Steel company at Canal Dover burned, loss, \$10,000.

Roy DeCamp, a Pennsylvania brakeman, aged 22, was instantly killed by cars near Youngstown.

The Salvation Army at Akron is planning to give a Christmas dinner to 500 of the city's poor.

Canonsburg is 100 years old Feb. 22. It is the oldest incorporated borough in western Pennsylvania.

Ralph G. Sayer has been commissioned as captain of Company L, Eighth Infantry, O. N. G., of Galion.

Burglars stole \$1,000 worth of silks from A. J. Humberger & Sons' store at Massillon. They picked the door lock.

Miss Sallie Porter, aged 75, the wealthiest maiden woman in Harrison county, died suddenly at her home near Newmans.

Mrs. Mary Ann O'Neal, a native of Frankfort Springs, Pa., and a resident of Steubenville since 1835, is dead in that city, aged 76.

Farmers near Powhattan are reported to have been swindled out of \$30,000 by an alleged minister who, it is said, interested them in a mythical scheme to establish a cement works.

The rural population of Lawrence county, Pa., is decreasing, the fact being shown by the decreased number of children of school age, which this fall is but 9,619, as compared with 10,311 last year.

W. L. Givens was badly burned at the Bellaire steel works a year ago, the hot metal running over his feet. He sued the National Steel company for \$19,999 damages, but a jury has just found for the defendant company.

The Offer to Ambler.

Salem, December 10.—(Special)—B. S. Ambler has gone to Washington to consult with the president about the position offered him in the Philippines. The place is a federal judgeship, with jurisdiction over four provinces. The salary is \$6,000.

\$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop formation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. Your only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. You can get Dr. G. G. Green's reliable remedies at Charles F. Craig's, Foutts Bldg., East Liverpool, O. Get Green's special almanac.

GOING TO LIBERIA

Fleet Walker, a Steubenville Negro, Will Publish His Paper There.

Steubenville, December 10.—Always earnest in his advocacy of the emigration of the American negro to Liberia, where they will have an equal chance for honor and position and not have prejudice to combat in the life struggle, M. Fleet Walker, a well-known negro resident of this city, has accepted an invitation to move to Liberia with his paper, and, with his family will remove there as soon as he can arrange his affairs. He will take a printing press and newspaper outfit with him, according to present plans, and edit the Equator there.

Fleet Walker is probably one of the best educated of the negro residents of this valley. He is a graduate of Oberlin college. He was some years ago connected with some of the best base ball teams in the country. He has been on the mail service, where efficiency and intelligence are demanded. He has lately been publishing an Afro-American newspaper, the Equator, and his articles are ably written and teem with advanced thought on the negro problem and how to avoid it.

Recently he received a letter from R. A. Wright, a senator of the Republic of Liberia, on the west coast of Africa, speaking in high terms of his paper and inviting him to come to Africa with his printing outfit, the senator binding himself in behalf of the government to defray the expense incurred. Senator Wright regards emigration as the only rational solution of the race problem in the United States.

COUNTY AND NEIGHBORHOOD

A big golden eagle was caught alive near Cadiz.

Nathan King, near Lisbon, lately celebrated his 86th birthday with a family party.

The warehouse of the American Sheet Steel company at Canal Dover burned, loss, \$10,000.

Roy DeCamp, a Pennsylvania brakeman, aged 22, was instantly killed by cars near Youngstown.

The Salvation Army at Akron is planning to give a Christmas dinner to 500 of the city's poor.

Canonsburg is 100 years old Feb. 22. It is the oldest incorporated borough in western Pennsylvania.

Ralph G. Sayer has been commissioned as captain of Company L, Eighth infantry, O. N. G., of Galion.

Burglars stole \$1,000 worth of silks from A. J. Humberger & Sons' store at Massillon. They picked the door lock.

Miss Sallie Porter, aged 75, the wealthiest maiden woman in Harrison county, died suddenly at her home near Newmans.

Mrs. Mary Ann O'Neal, a native of Frankfort Springs, Pa., and a resident of Steubenville since 1835, is dead in that city, aged 76.

Farmers near Powhattan are reported to have been swindled out of \$30,000 by an alleged minister who, it is said, interested them in a mythical scheme to establish a cement works.

The rural population of Lawrence county, Pa., is decreasing, the fact being shown by the decreased number of children of school age, which this fall is but 9,619, as compared with 10,311 last year.

W. L. Givens was badly burned at the Bellaire steel works a year ago, the hot metal running over his feet. He sued the National Steel company for \$19,999 damages, but a jury has just found for the defendant company.

The Offer to Ambler.

Salem, December 10.—(Special)—B. S. Ambler has gone to Washington to consult with the president about the position offered him in the Philippines. The place is a federal judgeship, with jurisdiction over four provinces. The salary is \$6,000.

\$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & Co., Toledo, O. Sold by druggists, 7c. Hall's Family Pills are the best.

Cut Glass—"Libbey" branded on every piece we sell. This means the very best. Sold at The Milligan Hardware & Supply Co. 148-eod

Page's Climax Salve will cure corns, chilblains, frosted feet, chapped hands and lips quicker than any other application. Try it and be convinced.

TABLET TO M'KINLEY,

Marks Spot Where Body of
Late President Lay
In State.

AN APPEAL TO CONGRESS.

To Be Made by the McKinley Memorial Arch Association For Money to Build Memorial Arch—Contributions to Be Returned.

Buffalo, N. Y., Dec. 10.—A bronze tablet marks the spot where the body of the late President McKinley lay in state in this city in the lower corridor of the city hall.

The inscription on it is as follows:

Here lay in state

the body of

WILLIAM M'KINLEY,

President of the

United States,

Sept. 15, 1901.

Forty-five stars form the border of the tablet, and the letters are cut into the bronze to the depth of three-eighths of an inch.

Washington, Dec. 10.—The William McKinley National Memorial Arch association has determined to change its plan of operation so as to appeal to congress instead of to the public for the erection of the proposed McKinley memorial at Washington.

Secretary Gage offered the following resolutions, which were seconded by Mr. Thomas F. Walsh, and adopted:

Resolution of Gage Adopted.

"Whereas, Through a resolution presented to this committee by the trustees of the McKinley National Memorial association, it is represented that a canvass of the country for subscriptions to the proposed memorial arch in Washington will be prejudicial, if not destructive, to the erection of a proper monument or memorial over the remains of the late president at Canton; therefore,

"Resolved, That this committee give up its appeal to the country for popular contributions for the memorial arch in Washington and turn its attention and efforts to secure from congress an appropriation from the public treasury sufficient in amount to erect in Washington a memorial which in a fitting manner shall represent the nation's appreciation of the noble character and distinguished public services of William McKinley.

"Resolved, That this committee accept the tender of earnest co-operation from the trustees of the McKinley National Memorial association to erect by the means of congressional appropriation the proposed memorial arch in Washington."

The association will be reincorporated and contributions received by the association for the proposed memorial arch will be returned.

GRACE AND SALVATION

DISCUSSED BY PRESBYTERIAN COMMITTEE.

Distinctive Doctrines Touched Upon. Talmage Entertained the Committee.

Washington, Dec. 10.—The Presbyterian committee on creed revision continued its work of preparing a brief doctrinal statement. Several subjects were discussed at the forenoon session, but no action was taken to incorporate them in the final statement. The committee was entertained at luncheon by Rev. Dr. T. DeWitt Talmage.

The formal announcement of the day's work yesterday of the committee made by the secretary is as follows:

The discussion of the day covered the very important subjects of Grace and Salvation and touched upon some of the distinctive doctrines of the Presbyterian church.

The individual members of the committee refrain from discussing what is accomplished, but instead have agreed to delegate to the secretary the duty of making a formal statement of each day's proceedings in order that what emanates from the committee may be uniform in character.

BELIEVE NELL CROPSEY

WILL BE FOUND.

Elizabeth City, N. C., Dec. 10.—A member of the committee of five which has charge of the search for Nell Cropsey, whose mysterious disappearance has created a sensation throughout the state, said last night that he expected important developments within 48 hours, adding that he believed the girl had been kidnaped and that they would succeed in finding her.

PRACTICALLY ESTABLISHES MRS. DALE'S INNOCENCE.

New York, Dec. 10.—The coroner's inquiry into the death of Emmeline Dale, the child of Elizabeth Howe Dale, was held in Hoboken and resulted in a verdict of accidental death from poisoning.

Pennsylvania Man For Consul.

Washington, Dec. 10.—The president sent the following nominations to the senate: Consuls of the United States—Richmond Pearson, North Carolina, at Genoa; Henry D. Saylor, Pennsylvania, at Dawson City, Yukon territory, Canada.

CIRCULATION STATEMENT.

The sworn paid circulation of the
EVENING NEWS REVIEW September
17, 1901, TWO THOUSAND ONE
HUNDRED (2,100.)

The average circulation since the
statement of August 1, 1901, TWO
THOUSAND AND THIRTY-FIVE (2,
035.)

A net gain since March 1, 1901, of
ONE THOUSAND TWO HUNDRED
AND TWENTY-THREE (1,223) sub-
scribers.

TUESDAY, DECEMBER 10, 1901.

The age of wonders has only just begun, according to a writer in Leslie's Weekly, who sums up the progress of electrical science during the past twenty years. Anthony N. Brady, one of the first to recognize the vast commercial and industrial possibilities of electricity and still one of the first promoters of electrical enterprises, sets forth some figures that will be a revelation to those who have not watched such matters closely. The amount of capital invested in electrical enterprises reaches stupendous totals, such as these: \$250,000,000 in telegraphy, \$400,000,000 in telephones, \$750,000,000 in electric lighting, and \$2,000,000,000 in electric railways, or a grand total of not less than \$4,000,000,000 in electrical industries in this country alone, and an employment roll of 500,000 people. Mr. Brady predicts that the next twenty years will see an advancement in the uses and applications of electricity greater than in the two decades past. Merchandise, he says, will soon be collected by electrically propelled express wagons, transferred to electrically propelled freight cars, and whirled from New York to Chicago at a speed of ninety miles an hour over trunk lines whose problems of electrical equipment and maintenance will have solved themselves.

Senator Hoar has introduced a resolution which is designed to carry into effect one of the many propositions now current for ridding the nations of anarchists. The senator's scheme is that the president enter into negotiations with foreign civilized countries for the purpose of securing and setting aside some island in the Pacific to which anarchists may be deported. Probably nothing will come of this measure. It is not likely to meet with general favor, for several reasons. In the first place, simple banishment is not enough punishment for the avowed advocates of murder and treason and the overthrow of all government. Secondly, the chances for international agreement are remote indeed, as the penal colony system is fast going out of favor with all civilized nations. Something less impracticable will have to be tried if any success is to be achieved.

It may be true, as the sensation mongers assert, that there is going to be an interesting contest at Columbus, for the officers of the legislature. Nothing has yet occurred, however, to warrant the assertion that it is going to be "war to the knife," "bitter, factional strife," or anything of the sort. Republican leaders are too wise and experienced to engage in such warfare. There can be rivalry without bitterness, and that is all we need look for. With those who are predicting strife and factional dissension the wish is father to the thought.

A prophet has arisen who says Americans are pouring into Mexico at such a rate and so rapidly securing control of all sorts of business there that the annexation of Mexico to this country is a certainty in a few years. Mexico has been our neighbor for 100 years, but is still far from being thoroughly Americanized. Until she is, talk of annexing such a political volcano, even thought it be smoldering at present, is something Uncle Sam is not likely to listen to with any degree of patience or seriousness.

It is announced that Andrew Carnegie is ready to give away \$10,000,000 more for the cause of education. At his present rate of progress he

may not die rich—and therefore disgraced, according to his own expression—after all.

A Christian scientist now asserts that eating and sleeping are entirely unnecessary. Just imagine that you have dined and slept and you will be just as well off. That doctrine zealously followed would soon put an end to such preposterous "science."

Charles M. Schwab, who argued that a college education does not pay, is having his attention called to the fact that the Yale football business yielded \$70,000 this season.

"A specialist in humbug" is what the New York Sun calls Tom L. Johnson. Those easterners are experts in sizing up a man.

Queen Wilhelmina evidently has one subject she cannot rule. Unfortunately for her, she is married to him.

OBITUARY

John Willis.

John Willis, who died at East Rochester last week, was 82 years of age and is survived by 15 children, 37 grandchildren and 15 great-grandchildren. Rev. Mr. Weaver, of East Liverpool, preached the funeral sermon.

AT THE THEATER

"York State Folks," Arthur Sidman's much-talked-of comedy of village life, comes to the Grand opera house tonight, with the original metropolitan company and production. This realistic reflection of life in a country town, by reason of its truthfulness in detail—scenically, historically and histrionically—has met with a remarkable reception from press and public, and has been called the "legitimate successor" to "The Old Homestead" and "Shore Acres." It abounds in comedy of a quaint sort and is said to have strong dramatic moments in its cleverly-told story. The company numbers 50 people, including such well known character actors as James Lackaye, Ray Royce, Ernest Lamson and Arthur Gregory. The scenic investiture, by Voegtlin, is said to be the most elaborate ever given a play of this sort.

Considerable comment has been aroused in New York and elsewhere this season by the unusually artistic posters and lithographs that are used to advertise Frank Keenan's production of "Hon. John Grigsby." The work on them is indeed far above the ordinary. The original designs of several of them were made by Hamilton King, one of the illustrators of the New York publication, Life. Another of the posters is a reproduction of a photograph by Gertrude Kasabier, a photographer, whose prints won medals at the Paris exposition.

The Wills Comedy company will be the attraction at the Grand opera house Thursday, Friday and Saturday nights. Messrs. Wills Bros. have surrounded themselves with an extra large and strong company, having engaged the best talent obtainable. All the music for the Wills Brothers comedy was especially composed and written by that musical genius, Harry Gracie.

A splendid performance, witnessed by a large attendance, was given by the Byrne Brothers at the Grand opera house last night. The acrobatic work was exceptionally fine and the trick bicycle riders gave a remarkable exhibition. Many new features were introduced, and the play, "Eight Bells," was enjoyed throughout.

A brush and comb set is an appropriate Christmas gift. See them at Anderson's Pharmacy. 150-1

The Terrapin Disease.

The terrapin is thought to have much influence in causing sickness, and the terrapin disease is either a rheumatic affliction about the chest and ribs or possibly some pulmonary trouble. The association of the terrapin with diseases in this portion of the body doubtless originates from the fact that the ribs of the terrapin are not free, as in the case of most of the higher animals, but are united into one piece.

An Indian who was ill applied for relief to a shaman and was asked, "Did you not when a boy tie strings to the terrapin's tail and worry the creature?" The patient admitted that he did. "Well," said the medicine man, "that is what is the matter. It is the terrapin's turn now, and the terrapin is paying off old scores. You have the terrapin sickness, and all your ribs have grown together and to your breast-bone."

The shaman administered the proper remedy prescribed in such cases—I forget what it was—and the man thought he was cured.

Doing His Best.

In the early morning I went to the postoffice in an Alabama town to inquire for mail, but found I was half an hour too early. I was walking away when the colored janitor who was sweeping out called to me and asked: "Was yo' procrastinatin' around yere arter yo' mail, sah?" "Yes, but I see I'm too early." "Yes, sah, too airy. An' was yo' a stranger in dis town?" "Yes." "An' hain't yo' no one to talk to?" "No." "Den, sah, if yo' don't keer to eliminate about de street fur half an hour yo' can stop right yere, an' I'll do my best to considerate de reciprocity of de situashun an' make yo' feel to home!"

The Last Nickel.

The Philadelphia Record tells of a little Sunday school boy who always receives a nickel from his father to place in the collection plate. Last Sunday his father gave him two nickels, saying, "One is for the Lord, and the other is for yourself." As it was too early to start for Sunday school the little boy sat on the porch steps, playing with the two nickels. After awhile he dropped one of them, and it disappeared down a crack. Without a moment's hesitation and still clutching the remaining coin in his clenched fist, he looked up at his father, exclaiming, "Oh, pop, there goes the Lord's nickel!"

Dolls.

The ivory doll of the Roman child was too costly for the ages that followed the fall of the empire. For many centuries dolls must have been chiefly of home manufacture. The first shop made dolls after the middle ages were the jointed wooden dolls of the Netherlands. These were known in England and in this country, too, in colonial times as "Flanders babies."

There is a good deal of quiet satisfaction in seeing somebody else run against fresh paint.—Milwaukee Journal.

There is one admirable thing about a dog—he always acts natural.—Acheson Globe.

People Who Used to Eat Spiders.

The enjoyment of particular kinds of food is, after all, a matter of custom and the African who revels in white ants is no more peculiar in his tastes than the European who eats cheese mites. A lady whom M. Reaumur knew was accustomed to devour spiders as fast as she could catch them, and a German lady gave it as her opinion that these creatures resembled in taste the most delicious nuts. A fellow countryman of this lady was in the habit of regularly hunting spiders in his own and his friends' houses. He used to spread them on bread, Rozel tells us, and vowed that they were far pleasanter to the palate than butter.—Cornhill Magazine.

AND TWENTY-THREE (1,223) sub-
scribers.

TUESDAY, DECEMBER 10, 1901.

The age of wonders has only just begun, according to a writer in Leslie's Weekly, who sums up the progress of electrical science during the past twenty years. Anthony N. Brady, one of the first to recognize the vast commercial and industrial possibilities of electricity and still one of the first promoters of electrical enterprises, sets forth some figures that will be a revelation to those who have not watched such matters closely. The amount of capital invested in electrical enterprises reaches stupendous totals, such as these: \$250,000,000 in telegraphy, \$400,000,000 in telephones, \$750,000,000 in electric lighting, and \$2,000,000,000 in electric railways, or a grand total of not less than \$4,000,000,000 in electrical industries in this country alone, and an employment roll of 500,000 people. Mr. Brady predicts that the next twenty years will see an advancement in the uses and applications of electricity greater than in the two decades past. Merchandise, he says, will soon be collected by electrically propelled express wagons, transferred to electrically propelled freight cars, and whirled from New York to Chicago at a speed of ninety miles an hour over trunk lines whose problems of electrical equipment and maintenance will have solved themselves.

Senator Hoar has introduced a resolution which is designed to carry into effect one of the many propositions now current for ridding the nation of anarchists. The senator's scheme is that the president enter into negotiations with foreign civilized countries for the purpose of securing and settling aside some island in the Pacific to which anarchists may be deported. Probably nothing will come of this measure. It is not likely to meet with general favor, for several reasons. In the first place, simple banishment is not enough punishment for the avowed advocates of murder and treason and the overthrow of all government. Secondly, the chances for international agreement are remote indeed, as the penal colony system is fast going out of favor with all civilized nations. Something less impracticable will have to be tried if any success is to be achieved.

It may be true, as the sensation mongers assert, that there is going to be an interesting contest at Columbus, for the officers of the legislature. Nothing has yet occurred, however, to warrant the assertion that it is going to be "war to the knife," "bitter, factional strife," or anything of the sort. Republican leaders are too wise and experienced to engage in such warfare. There can be rivalry without bitterness, and that is all we need look for. With those who are predicting strife and factional dissension the wish is father to the thought.

A prophet has arisen who says Americans are pouring into Mexico at such a rate and so rapidly securing control of all sorts of business there that the annexation of Mexico to this country is a certainty in a few years. Mexico has been our neighbor for lo! these many years, but is still far from being thoroughly Americanized. Until she is, talk of annexing such a political volcano, even thought it be smoldering at present, is something Uncle Sam is not likely to listen to with any degree of patience or seriousness.

It is announced that Andrew Carnegie is ready to give away \$10,000,000 more for the cause of education. At his present rate of progress he

may not die rich—and therefore disgraced, according to his own expression—after all.

A Christian scientist now asserts that eating and sleeping are entirely unnecessary. Just imagine that you have dined and slept; and you will be just as well off. That doctrine zealously followed would soon put an end to such preposterous "science."

Charles M. Schwab, who argued that a college education does not pay, is having his attention called to the fact that the Yale football business yielded \$70,000 this season.

"A specialist in humbug" is what the New York Sun calls Tom L. Johnson. Those easterners are experts in shaking up a man.

Queen Wilhelmina evidently has one subject she cannot rule. Unfortunately for her, she is married to him.

OBITUARY

John Willis.

John Willis, who died at East Rochester last week, was 82 years of age and is survived by 15 children, 37 grandchildren and 15 great-grandchildren. Rev. Mr. Weaver, of East Liverpool, preached the funeral sermon.

AT THE THEATER

"York State Folks," Arthur Sildman's much-talked-of comedy of village life, comes to the Grand opera house tonight, with the original metropolitan company and production. This realistic reflection of life in a country town, by reason of its truthfulness in detail—scenically, historically and histrionically—has met with a remarkable reception from press and public, and has been called the "legitimate successor" to "The Old Homestead" and "Shore Acres." It abounds in comedy of a quaint sort and is said to have strong dramatic moments in its cleverly-told story. The company numbers 50 people, including such well known character actors as James Lackaye, Ray Royce, Ernest Lamson and Arthur Gregory. The scenic investiture, by Voegtlin, is said to be the most elaborate ever given a play of this sort.

Considerable comment has been aroused in New York and elsewhere this season by the unusually artistic posters and lithographs that are used to advertise Frank Keenan's production of "Hon. John Grigsby." The work on them is indeed far above the ordinary. The original designs of several of them were made by Hamilton King, one of the illustrators of the New York publication, Life. Another of the posters is a reproduction of a photograph by Gertrude Kasabier, a photographer, whose prints won medals at the Paris exposition.

The Wills Comedy company will be the attraction at the Grand opera house Thursday, Friday and Saturday nights. Messrs. Wills Bros. have surrounded themselves with an extra large and strong company, having engaged the best talent obtainable. All the music for the Wills Brothers comedy was especially composed and written by that musical genius, Harry Grace.

A splendid performance, witnessed by a large attendance, was given by the Byrne Brothers at the Grand opera house last night. The acrobatic work was exceptionally fine and the trick bicycle riders gave a remarkable exhibition. Many new features were introduced, and the play, "Eight Bells," was enjoyed throughout.

The Terrapin Disease.

The terrapin is thought to have much
influence in causing sickness, and the
terrapin disease is either a rheumatic
affliction about the chest and ribs or
possibly some pulmonary trouble. The
association of the terrapin with diseases
in this portion of the body doubtless
originates from the fact that the ribs
of the terrapin are not free, as in the
case of most of the higher animals, but
are united into one piece.

An Indian who was ill applied for re-
lief to a shaman and was asked, "Did
you not when a boy tie strings to the
terrapin's tail and worry the creature?"
The patient admitted that he did.
"Well," said the medicine man, "that
is what is the matter. It is the terrapin's
turn now, and the terrapin is pay-
ing off old scores. You have the terrapin
sickness, and all your ribs have
grown together and to your breast-
bone."

The shaman administered the proper
remedy prescribed in such cases—I for-
get what it was—and the man thought
he was cured.

Doing His Best.

In the early morning I went to the
postoffice in an Alabama town to in-
quire for mail, but found I was half
an hour too early. I was walking away
when the colored janitor who was
sweeping out called to me and asked:
"Was yo' procrastinatin' around yere
arter yo'r mail, sah?"
"Yes, but I see I'm too early."
"Yes, sah, too airly. An' was yo' a
stranger in dis town?"
"Yes."
"An' hain't yo' no one to talk to?"
"No."
"Den, sah, if yo' don't keer to elimi-
nate about de street fur half an hour
yo' can stop right yere, an' I'll do my
best to considerate de reciprocity of de
situation an' make yo' feel to home!"

The Last Nickel.

The Philadelphia Record tells of a
little Sunday school boy who always
receives a nickel from his father to
place in the collection plate. Last Sun-
day his father gave him two nickels,
saying, "One is for the Lord, and the
other is for yourself." As it was too
early to start for Sunday school the
little boy sat on the porch steps, play-
ing with the two nickels. After awhile
he dropped one of them, and it disap-
peared down a crack. Without a mo-
ment's hesitation and still clutching
the remaining coin in his clinched fist,
he looked up at his father, exclaiming,
"Oh, pop, there goes the Lord's nickel!"

Dolls.

The ivory doll of the Roman child
was too costly for the ages that follow-
ed the fall of the empire. For many
centuries dolls must have been chiefly
of home manufacture. The first shop
made dolls after the middle ages were
the jointed wooden dolls of the Nether-
lands. These were known in England
and in this country, too, in colonial
times as "Flanders babies."

There is a good deal of quiet satis-
faction in seeing somebody else run
against fresh paint.—Milwaukee Jour-
nal.

There is one admirable thing about
a dog—he always acts natural.—Atchi-
son Globe.

People Who Used to Eat Spiders.

The enjoyment of particular kinds of
food is, after all, a matter of custom
and the African who revels in white
ants is no more peculiar in his tastes
than the European who eats cheese
mites. A lady whom M. Reaumur knew
was accustomed to devour spiders as
fast as she could catch them, and a
German lady gave it as her opinion
that these creatures resembled in taste
the most delicious nuts. A fellow coun-
tryman of this lady was in the habit of
regularly hunting spiders in his own
and his friends' houses. He used to
spread them on bread, Rozel tells us,
and vowed that they were far pleas-
anter to the palate than butter.—Corn-
hill Magazine.

Silver, Art and Cutlery Department

WE have just completed the placing in this
department one of the finest show cases made,
for the display of Silverware, Art Ware,
Cut Glass, etc. We are showing in this
department the finest and choicest designs of Sterling
Goods, as made by the leading Silversmiths, Gorham
Mfg. Co., Reed & Barton and International Silver
Co. Our line of Spoons is not equaled even by the
large cities.

We would also call your special attention to the
Rookwood Pottery Co's new line of Iris ware. This
is their latest production and you will find no two
pieces alike.

Our stock of genuine Libbey Cut Glass is larger
than ever. There is no better glass made. Every
piece has their trade mark on it.

We have just added to this department a complete
line of Quadruple Plate Hollow Ware, Candleabras,
fancy Shades for same, etc. Also a new line of Art
Glass. This is surely worthy of your inspection.

We have been able to secure a few pieces of genuine
Kayzer Zinn Ware, and hope to have more within a
few days.

If you are hunting for a Wedding, Birthday or
Christmas Present, we can certainly show you a line
as complete as found in any city store. We handle
nothing but strictly high class goods. We cordially
invite you to see us.

The Milligan Hardware & Supply Co.

ONLY ONE TICKET

TO BE PRESENTED TO THE VOTERS OF CHESTER.

But It Will Bear the Names of a Multitude of Candidates.

Final preparations are being made for the election which will take place January 2, 1902. The board of elections held a meeting last night and elected G. A. Arner as president. Mr. Arner's duties will be to open the books, receive the entry money of the candidates and have tickets printed.

There are candidates galore for the several elective positions. At least 15 names will appear on the ticket for election to council. The present members will be in the race, with the exception of Dunn and Arner. For the mayoralty there are four candidates: John Marshall, Howard Piper, A. G. Pugh and John Shrader.

The office of recorder is not deemed a very desirable one and consequently there are only two candidates, J. Howard Maxwell and J. S. Mercer.

Chesterites have been under the impression for some time that four tickets would be presented at the polls on election day, but a prominent politician is authority for the announcement that all the tickets have been consolidated into a city ticket, and as a result only one ticket will be presented.

DEPLORABLY BAD

Are the Unpaved Streets on Account of Mud—A Team Stalled.

The recent downpour of rain has left the streets of Chester in a deplorable condition. The sidewalks are almost impassable and the roads are so thickly covered with soft mud that teams can scarcely haul an empty wagon over them.

A team attached to a wagon heavily laden with bricks this morning came stalled within six inches of the street car track on Front street, and for a few minutes stopped traffic on that thoroughfare. The horses were finally delivered from their dilemma by the aid of a car which pushed the wagon completely out of the hole.

CHRISTMAS EXERCISES

M. E. Church Members Preparing for an Interesting Entertainment.

Mrs. S. E. Rose, Mrs. John Gardner and George H. Johnson, a committee appointed by the members of the M. E. church to arrange for Christmas exercises, met last night and formulated plans for the event. The entertainment will be given in the church during the holidays.

A program was not arranged, but

WELLSVILLE

CASH IS LOW

WELLSVILLE BOARD OF EDUCATION'S DISCOVERY.

Money May Have to Be Borrowed to Pay School Expenses.

At the regular semi-monthly meeting of the board of education in the Central school building last night business of much importance was transacted. There were present at the meeting Messrs. Rex, Parke, White, Lones and Hutcheson.

Bills amounting to \$69.16 were read and approved and would have been ordered paid but for the information imparted by Mr. Rex in regard to the financial standing of the board. He stated that the Silver Banking company had informed him that the school money had been overdrawn \$300. Some of the members were surprised at this, but upon investigation of the clerk's book they found that in September there were \$6,000 in the school fund and that up to date nearly \$6,300 had been paid for the general running expenses.

It being known that the school fund will not be reimbursed until February the banking company volunteered to loan the board any amount at 5 per cent interest.

Mr. Lones said he thought that the county treasurer would advance the money required, and it was decided not to borrow until the treasurer was communicated with. To pay the teachers' and janitors' bills alone until February it will take \$3,062.

No time was specified for the holiday vacation, but a special meeting will be held next week, when the number of weeks will be agreed upon and the teachers' salaries paid.

PAY CAR IN TOWN

Its Arrival Gladdens the Hearts of Hundreds of Wellsville Folks.

The pay car was in Wellsville yesterday and stopped at both depots, gladdening the hearts and fattening the pocketbooks of the several hundred railroad men who reside in this city.

The monthly pay of the railroad means much in Wellsville, and consequently is looked forward to with interest by the business men as well as the employees.

Mrs. M. A. Hanna Contributes.

The ladies of the U. P. church will give a handkerchief bazaar next Thursday afternoon and evening which promises to be very attractive. Beautiful handkerchiefs have been received from all parts of the world. Mrs. H. B. Andrews wrote Mrs. Marcus A. Hanna, of Cleveland, stating that a handkerchief from her would be appreciated. A lovely one was sent. The proceeds of this sale will be donated to the church fund.

U. P. Presbytery Meeting.

There was a called meeting of the Steubenville U. P. presbytery in the U. P. church of this city this afternoon. Matters of importance were acted upon, among them the request of Rev. Dr. Heidiger to be released from the church at Toronto.

Badly Hurt By a Fall.

Frank Apple, night foreman at the shops, is laid up as a result of an accident which befell him last Saturday night. He went out in the darkness to awaken a train crew and stumbled over a water plug, bruising himself considerably.

MINOR NEWS OF WELLSVILLE.

Mrs. Harry Lownds is quite sick. Byron Kelly, West End, is reported sick.

H. E. Sheets has accepted a position with J. J. Dowling. Judge Smith left last evening on a business trip to Lisbon.

Miss Beulah Wells is confined to her home with sickness. John Lewis is recovering from a siege with typhoid fever. Herschel Burbick, visiting relatives.

THE BIG STORE.

THE WAY OF A TORNADO.

One That Was Remarkable Both in Appearance and Action.

"A tornado that was remarkable both in appearance and in action was one that traveled from Texas across Oklahoma and Indian Territory in May, 1896," says Earl W. Mayo in Ainslee's. "A man in Sherman, Okla., who had exceptional opportunities for observing the storm, inasmuch as he was caught up in it and carried several hundred yards before descending to earth again, is certain that it was not funnel shaped. He says of it:

"It looked to me like a great ball of vapor rolling over and over toward me. When I first saw it distinctly, it was at a hill perhaps an eighth of a mile away. It seemed to be about 250 yards wide and 100 feet high. The motion was that of a ball rolling over and over, not spiral, and it came on rather slowly, perhaps thirty miles an hour. Whatever the ball of cloud struck was lifted right off the ground.

"I saw it pick up house after house between the hill and me, and the cloud seemed to be full of flying boards and timbers. When the ball reached Mrs. C's, the house nearest me, it went straight up off its foundations. The house remained intact until it was about twenty or twenty-five feet from the ground, then it burst open and the fragments flew in all directions. It looked like an exploding bomb. The corn and cotton standing a hundred feet on either side of the storm's path were uninjured, but whenever the cloud struck the higher ground it spread out, covering a wider strip of the surface.

"When the cloud struck me, I went up lightly and easily and the sensation was not unpleasant, but I came down hard and was badly shaken up, although not seriously injured. On the highway north of Sherman fence wires were torn from the posts and pounded into the hard surface of the road a distance of two or three inches."

A Four Footed Bird.

There is a four footed bird, the Opisthocomus cristatus, which has such anomalies of structure that it is impossible to class it along with any other family. It is one of those survivors which tell us of extinct groups of whose past existence we would otherwise have remained forever ignorant. These, the only species of four footed birds, inhabit the island of Marajo in the lower Amazon. It is only during infancy that this remarkable feature of these birds is seen, the two fore feet appearing early in the development of the embryo and continuing perfectly formed for several days after hatching, when they are gradually shed. It is also known as the hoatzin or evil smelling bird, the flesh having an unpleasant odor, making it unpalatable to both man and carnivorous animals, which is probably one cause of its survival.

PAY CAR IN TOWN

Its Arrival Gladdens the Hearts of Hundreds of Wellsville Folk.

The pay car was in Wellsville yesterday and stopped at both depots, gladdening the hearts and fattening the pocketbooks of the several hundred railroad men who reside in this city.

The monthly pay of the railroad means much in Wellsville, and consequently is looked forward to with interest by the business men as well as the employees.

Mrs. M. A. Hanna Contributes.

The ladies of the U. P. church will give a handkerchief bazar next Thursday afternoon and evening which promises to be very attractive. Beautiful handkerchiefs have been received from all parts of the world. Mrs. H. B. Andrews wrote Mrs. Marcus A. Hanna, of Cleveland, stating that a handkerchief from her would be appreciated. A lovely one was sent. The proceeds of this sale will be donated to the church fund.

U. P. Presbytery Meeting.

There was a called meeting of the Steubenville U. P. presbytery in the U. P. church of this city this afternoon. Matters of importance were acted upon, among them the request of Rev. Dr. Heidiger to be released from the church at Toronto.

Badly Hurt By a Fall.

Frank Apple, night foreman at the shops, is laid up as a result of an accident which befell him last Saturday night. He went out in the darkness to awaken a train crew and stumbled over a water plug, bruising himself considerably.

MINOR NEWS OF WELLSVILLE.

Mrs. Harry Lownds is quite sick. Byron Kelly, West End, is reported sick.

H. E. Sheets has accepted a position with J. J. Dowling. Judge Smith left last evening on a business trip to Lisbon.

Miss Beulah Wells is confined to her home with sickness. John Lewis is recovering from a siege with typhoid fever.

HARD'S.

THE BIG STORE.

In this city, returned to Pittsburg yesterday.

M. R. Shingler left for Pittsburg this morning on business.

Mrs. Leslie Otto is slowly recovering from an attack of pneumonia.

The session of the First Presbyterian church held a meeting last night.

Harry Blackburn left today for Florence, where he will work in the oil fields.

Mr. and Mrs. George Bean, of Seewickley, are visiting William Bean and family.

B. D. Deacon returned to Canton yesterday after a pleasant visit with his mother.

H. A. Frazer and C. P. Smith, of the machine shop, are off duty on account of sickness.

Mr. Howe, of the Butler & Howe company, made a business trip to Pittsburg today.

James Murray, a prominent oil well driller of New Cumberland, was in the city yesterday visiting friends.

Mrs. Fox, of Ft. Wayne, is visiting her husband, Frank Fox, who is foreman at the machine shops, West End.

Miss Rena Turner is sick and not able to perform her duties at the Central school building as primary teacher.

A large delegation of witnesses left this morning for Lisbon to testify in the Keeling divorce case, which was set for a hearing today.

Miss Erla Morrow, who was so severely burned two weeks ago, is yet suffering much pain. A sister from Pittsburg is visiting her.

Among the residents of Tenth street that are reported sick are: Mrs. Hiram McCord, Mrs. Charles Kelly and Mrs. J. R. Junken.

William McSweeney and wife are home from their two weeks' honeymoon. In the spring they will go to housekeeping in a new house which will be built on Main street.

Length of Dreams.

Three physicians were discussing the matter of the length of dreams a day or two ago, when one of them related a strange experience.

"Yesterday afternoon," he said, "I called to see a patient, and, much to my satisfaction, I found him sleeping soundly. I sat by his bed, felt of his pulse without disturbing him and waited for him to awaken. After a few minutes a junk dealer's cart with discordant ringing bells turned into the street, and as their first tones reached us my patient opened his eyes.

"Doctor," he said, "I'm glad to see you and awfully glad that you woke me, for I have been tortured by a most distressing dream that must have lasted for several hours. I dreamed that I was sick, as I am, and that my boy came into the room with a string of most horribly sounding sleighbells and rang them in my ears, while I hadn't power to move or speak to him. I suffered tortures for what appeared to be an interminable time. I'm so glad you woke me."

"The ringing of those bells for one second had caused all of that dream and just at the waking moment."—New York Herald.

THE WAY OF A TORNADO.

One That Was Remarkable Both in Appearance and Action.

"A tornado that was remarkable both in appearance and in action was one that traveled from Texas across Oklahoma and Indian Territory in May, 1896," says Earl W. Mayo in Ainslee's. "A man in Sherman, Okla., who had exceptional opportunities for observing the storm, inasmuch as he was caught up in it and carried several hundred yards before descending to earth again, is certain that it was not funnel shaped. He says of it:

"It looked to me like a great ball of vapor rolling over and over toward me. When I first saw it distinctly, it was at a hill perhaps an eighth of a mile away. It seemed to be about 250 yards wide and 100 feet high. The motion was that of a ball rolling over and over, not spiral, and it came on rather slowly, perhaps thirty miles an hour. Whatever the ball of cloud struck was lifted right off the ground.

"I saw it pick up house after house between the hill and me, and the cloud seemed to be full of flying boards and timbers. When the ball reached Mrs. C's, the house nearest me, it went straight up off its foundations. The house remained intact until it was about twenty or twenty-five feet from the ground, then it burst open and the fragments flew in all directions. It looked like an exploding bomb. The corn and cotton standing a hundred feet on either side of the storm's path were uninjured, but whenever the cloud struck the higher ground it spread out, covering a wider strip of the surface.

"When the cloud struck me, I went up lightly and easily and the sensation was not unpleasant, but I came down hard and was badly shaken up, although not seriously injured. On the highway north of Sherman fence wires were torn from the posts and wound into the hard surface of the road a distance of two or three inches."

A Four Footed Bird.

There is a four footed bird, the Oplithocornis cristatus, which has such anomalies of structure that it is impossible to class it along with any other family. It is one of those survivors which tell us of extinct groups of whose past existence we would otherwise have remained forever ignorant. These, the only species of four footed birds, inhabit the island of Marajo in the lower Amazon. It is only during infancy that this remarkable feature of these birds is seen, the two fore feet appearing early in the development of the embryo and continuing perfectly formed for several days after hatching, when they are gradually shed. It is also known as the hoatzin or evil smelling bird, the flesh having an unpleasant odor, making it unpalatable to both man and carnivorous animals, which is probably one cause of its survival.

CURES RHEUMATISM.

Stops the Pain and Reduces Swelling Almost Instantly.

Blood Wine Goes About It In A Different Way—Begins at the Bottom—Removes the Cause.

"Blood Wine" cures Rheumatism and cures it quickly, thoroughly and permanently. It cures neuralgia, and all forms of aches and pains. Is not Rheumatism caused by uric acid in the blood? This everybody knows. To treat it you must have something to work directly on the blood, to filter it, cleanse and purify it, drive the uric acid out of it and make it so healthy that it or any other foreign matter will not return again. "Blood Wine" is a powerful blood remedy, hence an effective rheumatic cure. It contains no wine or opiates, but medicine of most extraordinary value. For Rheumatism "Blood Wine" never fails. Mrs. T. Foster of Salem St., Providence, R. I., was saved from a life of suffering, and given back her health by using "Blood Wine." She says:

"I have used six bottles of 'Blood Wine' for rheumatism and backache, and feel it my duty to let you know what your medicine has done for me. I am completely cured and owe my recovery wholly to your 'Blood Wine.'"

MRS. ADDIE FLETCHER.

Mrs. Addie Fletcher of 22 Isabella St., Boston, Mass., has experienced a very wonderful cure of rheumatism of long standing. These are her words:

"I think I ought to write you in regard to my experience with your valuable remedy. I have had rheumatism in my ankle so badly that I have been unable to walk for days at a time, and I was almost discouraged when 'Blood Wine' was recommended to me. I thought I would try one more medicine, and was delighted to find that I gained rapidly while taking one bottle, and now I find myself almost cured after taking four bottles. 'Blood Wine' is invaluable in my household and I heartily recommend it to all."

"Blood Wine" costs fifty cents a bottle, but you can sample it free of charge at Will Reed and Hodson's drug stores.

BEST FOR THE BOWELS

If you haven't a regular, healthy movement of the bowels every day, you're ill or will be. Keep your bowels open, and in good shape. Force, in the shape of violent physic or pill poison, is dangerous. The smooth, cool, moist, most perfect way of keeping the bowels clear and clean is to take

A \$10,000,000 GIFT.

Carnegie Will Present \$10,000,000 to the United States, For

GREATEST UNIVERSITY IN WORLD

President Roosevelt to Announce Fact, in Message to Congress. School to Be For Post-Graduates. Location, Washington.

Washington, Dec. 10.—The Washington Post was expected to say to-day:

President Roosevelt has received a letter from Andrew Carnegie, in which the latter offers to make a donation of \$10,000,000 to the United States. The latter will be referred to congress by the president in a special message.

Greatest in World Intended.

Mr. Carnegie's gift is for the purpose of establishing in Washington a university for higher education. As far as his idea has been developed it proposes a gift after the manner of the bequest of James Smithson, the Englishman, who gave \$1,000,000 for the establishment and maintenance of what is now known as the Smithsonian institution. Smithson desired the institution founded by him to be a factor in "the diffusion of scientific knowledge." Mr. Carnegie proposes that the university which he is to endow shall be the greatest institution in the world for the development of higher education. He has consulted President Gilman, of the Johns Hopkins university; President Hadley, of Yale; President Eliot, of Harvard; President White, of Cornell, and all the leading educators of the country. They heartily endorse his plans. The proposed university will not interfere in the least with the educational institutions already established, but will supplement them, for, according to the present plan, its doors will be open only to those who desire to take up a post graduate course. Mr. Carnegie also wants the new university to take the lead in original research, so that the United States can eventually stand side by side with Germany, if not excel that nation, in scientific development.

Wants Government Simply Trustee.

Mr. Carnegie's plan does not propose a national university in the sense that an appropriation will be asked or needed. The government is simply to be the trustee of the magnificent endowment, just as it administers the fund bequeathed by Smithson. It is probable that a board of regents will be appointed, as in the case of the Smithsonian institution, or it may be that the government will be represented upon the board of directors, which, it is contemplated, shall consist of men of national reputation.

Mr. Carnegie has kept the proposed endowment a secret until he could definitely arrange the plans and scope of the new university. Even yet all these details have not been arranged, so that little more than the outline of his gift can be published. It is known, however, that he does not propose to ask from congress a single foot of land upon which the university buildings will be constructed. The entire expense is to be borne out of his endowment. No site has yet been selected. It will, however, necessarily be very large, as it is proposed to erect a series of magnificent structures.

Equals Harvard Endowment.

The amount of money to be given by Mr. Carnegie equals the sum of the recent endowment fund of Harvard, and is considerably more than the invested fund of Yale. With the Catholic university, the Methodist university and the proposed Carnegie university, Washington will be the educational center of the country.

THREE RIOTERS WERE SHOT.

Miners Attack Officers and Non-Union Motormen, at Scranton, Pa.

Scranton, Pa., Dec. 10.—A serious street car riot occurred here. Special Officer Frank Schofield, accompanied by Detective Congrove, whose head was cut in Sunday night's riot, went to the scene of Sunday night's disturbance to apprehend anyone the detectives might be able to identify as having been among his assailants. They attempted to arrest a man in a saloon, but no sooner was the warrant shown than a crowd of miners attacked them with drills, clubs and bottles. They retreated backwards.

It Takes a Remedy of Uncommon Merit to Draw the Unqualified Praise of a Successful Practicing Physician.

Dr. J. W. Bates of Corfu, N. Y., states: "A most remarkable case has come under my hands of late and has fully convinced me of the wonderful power of Dr. A. W. Chase's Nerve Pills over diseases of the nerves."

"A young lady who was treated for over two years for epilepsy by two doctors was given up to die. I found that her sickness was not epilepsy, but nervous troubles, due to menstrual derangements, and prescribed four of Dr. Chase's Nerve Pills a day, after meals and at bed-time. Since that time she has not had a single bad spell. Her health has rapidly improved, she has gained about fifteen pounds in weight, and I do not hesitate to state that Dr. A. W. Chase's Nerve Pills have saved her life and restored her to health."

See that the portrait and signature of Dr. A. W. Chase are on every box. Price 50 cents a box.—Six boxes for \$2.50. Manufactured by Dr. A. W. Chase Medicine Co., New York.

Sold in East Liverpool by Charles T. Larkins.

Bon Ami

The Finest Cleaner Made
Cleans paint and woodwork.

protecting themselves with drawn revolvers, when some one in the mob fired two shots. The officers and a non-union motorman, who accompanied them, emptied their revolvers, thereby scattering the mob, and then ran. The mob kept up a steady fire from places of concealment.

Three of the mob were shot, but their wounds are not serious.

Schofield is a striking conductor. He is serving as a special officer in Magistrate Miller's court, to fill in time until the strike shall be settled.

Magistrate Miller says that he will have the warrant served if he has to send the whole police force to back up his officers.

FIGHTING THE MACHINES.

Cigarmakers Trying to Prevent Their Use—Some Labor Delegates Declare It Folly.

Scranton, Pa., Dec. 10.—The convention of the American Federation of Labor was in session only two hours yesterday, adjournment being taken until this morning in order to enable the several committees to consider the large number of resolutions still in their hands. There was a lively discussion on the floor of the convention over the question of boycotting machine-made cigars. It is the same question that the Cigarmakers' International union has brought up at previous conventions of the Federation and the union has always been defeated in its fight against the introduction of machinery in the cigar trade. At the present time not a machine-made cigar in the United States, it is said, bears the label of the Cigarmakers' International union. The matter came up in the form of a resolution presented by President Gompers, John C. Dornell and Thomas F. Tracy, of the cigarmakers' union, and was referred to the committee on labels. It denounced a certain company for making cigars by child labor and machinery and calling upon the Federation to assist in unionizing the various plants of the company. The committee recommended that the word "machinery" be stricken out and the resolution adopted. Then the cigarmakers opened their fight. They insisted that the term "machinery" should not be eliminated, and argued that cigars made by machinery are not as good as those made by hand, and that machines drive hand cigarmakers out of the business. The speakers in opposition to the cigarmakers' proposition argued that to oppose machinery would be folly. Machines are being introduced in many lines of trade, it said, and the union could not successfully fight the law of progress. It was pointed out to the cigarmakers that the best thing to do was to organize the operators of the machines and adopt a wage scale, just as the typographical and other unions have done when machinery was introduced in their trades. The discussion promised to be very lengthy, but the moving of the previous question quickly ended the debate, and the resolution with the word "machinery" stricken out was adopted as recommended.

The committee on labels and the committee on resolutions reported a number of resolutions, which were adopted in every instance where the committees brought in a favorable recommendation.

MISS STONE REPORTED ALIVE.

A Macedonian Has Brought Information of the Prison Places of Prisoners and Bandit Captors.

Sofia, Dec. 10.—According to information from Salonica, Miss Stone and Miss Tsilka, her companion, are concealed in the vicinity of Bilo, about five miles south of Dubnitsa, in Bulgarian territory. The news was brought by a Macedonian, who left there Dec. 1 and who furnished precise information regarding the hiding places and the names of the agents supplying food for the brigands and their captives.

It is understood that the information is considered reliable enough to justify the American officials in Turkey dispatching emissaries to treat with the bandits, and that application has already been made to the Turkish government for the free passage of the emissaries across the Turkish frontier, which is vigilantly guarded by troops stationed at every hundred yards.

New York, Dec. 10.—The Rev. Henry C. Haskell, D. D., superintendent of the American board of foreign missions, stationed at Samakov, Bulgaria, cables the following to The World concerning the possible fate of Miss Stone and her companion:

"Considerable confirmation of the report that Miss Ellen M. Stone and Mrs. Tsilka are dead comes from Salonica, but nothing positive is yet known. Our (American board of foreign missions) messengers have not returned. Their delay is intelligible, for traveling over mountains covered with snow is difficult, while the brigands are now more than ever hard to get into communication with. We still hope that the report that the captives are dead may be only a ruse of the brigands to prevent being pursued."

Mrs. Frank Leslie Is Seriously Ill.

New York, Dec. 10.—Baroness De Bazus, better known in social and literary circles as Mrs. Frank Leslie, is seriously ill in her apartments in the Chelsea. It is said she is suffering with a complication of diseases.

George H. Fisher Dead.

Toledo, O., Dec. 10.—George H. Fisher, resident of the Gendron Wheel company, of this city, died suddenly of apoplexy at his apartments in the Monticello. He was 55 years old. He leaves a widow and one son.

A \$10,000,000 GIFT.

Carnegie Will Present \$10,000,000 to the United States, For

GREATEST UNIVERSITY IN WORLD

President Roosevelt to Announce Fact, in Message to Congress. School to Be For Post-Graduates. Location, Washington.

Washington, Dec. 10.—The Washington Post was expected to say today:

President Roosevelt has received a letter from Andrew Carnegie, in which the latter offers to make a donation of \$10,000,000 to the United States. The latter will be referred to congress by the president in a special message.

Greatest in World Intended.

Mr. Carnegie's gift is for the purpose of establishing in Washington a university for higher education. As far as his idea has been developed it proposes a gift after the manner of the bequest of James Smithson, the Englishman, who gave \$1,000,000 for the establishment and maintenance of what is now known as the Smithsonian institution. Smithson desired the institution founded by him to be a factor in "the diffusion of scientific knowledge." Mr. Carnegie proposes that the university which he is to endow shall be the greatest institution in the world for the development of higher education. He has consulted President Gilman, of the Johns Hopkins university; President Hadley, of Yale; President Eliot, of Harvard; President White, of Cornell, and all the leading educators of the country. They heartily endorse his plans. The proposed university will not interfere in the least with the educational institutions already established, but will supplement them, for, according to the present plan, its doors will be open only to those who desire to take up a post graduate course. Mr. Carnegie also wants the new university to take the lead in original research, so that the United States can eventually stand side by side with Germany, if not excel that nation, in scientific development.

Wants Government Simply Trustee.

Mr. Carnegie's plan does not propose a national university in the sense that an appropriation will be asked or needed. The government is simply to be the trustee of the magnificent endowment, just as it administers the fund bequeathed by Smithson. It is probable that a board of regents will be appointed, as in the case of the Smithsonian institution, or it may be that the government will be represented upon the board of directors, which, it is contemplated, shall consist of men of national reputation.

Equals Harvard Endowment.

The amount of money to be given by Mr. Carnegie equals the sum of the present endowment fund of Harvard, and is considerably more than the invested fund of Yale. With the Catholic university, the Methodist university and the proposed Carnegie university, Washington will be the educational center of the country.

THREE RIOTERS WERE SHOT.

Miners Attack Officers and Non-Union Motormen, at Scranton, Pa.

Scranton, Pa., Dec. 10.—A serious street car riot occurred here. Special Officer Frank Schofield, accompanied by Detective Congrove, whose head was cut in Sunday night's riot, went to the scene of Sunday night's disturbance to apprehend anyone the detectives might be able to identify as having been among his assailants. They attempted to arrest a man in a saloon, but no sooner was the warrant shown than a crowd of miners attacked them with drills, clubs and bottles. They retreated backwards.

It Takes a Remedy of Uncommon Merit to Draw the Unqualified Praise of a Successful Practicing Physician.

Dr. J. W. Bates of Corfu, N. Y., states: "A most remarkable case has come under my hands of late and has fully convinced me of the wonderful power of Dr. A. W. Chase's Nerve Pills over diseases of the nerves."

"A young lady who was treated for over two years for epilepsy by two doctors was given up to die. I found that her sickness was not epilepsy, but nervous troubles, due to menstrual derangements, and prescribed four of Dr. Chase's Nerve Pills a day, after meals and at bed-time. Since that time she has not had a single bad spell. Her health has rapidly improved, she has gained about fifteen pounds in weight, and I do not hesitate to state that Dr. A. W. Chase's Nerve Pills have saved her life and restored her to health."

See that the portrait and signature of Dr. A. W. Chase are on every box. Price 50 cents a box.—Six boxes for \$2.50. Manufactured by the Dr. A. W. Chase Medicine Co. Buffalo, N. Y. Sold in East Liverpool by Charles T. Larkins.

Bon Ami

The Finest Cleaner Made Cleans paint and woodwork.

protecting themselves with drawn revolvers, when some one in the mob fired two shots. The officers and a non-union motorman, who accompanied them, emptied their revolvers, thereby scattering the mob, and then ran. The mob kept up a steady fire from places of concealment.

Three of the mob were shot, but their wounds are not serious.

Schofield is a striking conductor. He is serving as a special officer in Magistrate Miller's court, to fill in time until the strike shall be settled.

Magistrate Miller says that he will have the warrant served if he has to send the whole police force to back up his officers.

FIGHTING THE MACHINES.

Cigarmakers Trying to Prevent Their Use—Some Labor Delegates Declares It Folly.

Scranton, Pa., Dec. 10.—The convention of the American Federation of Labor was in session only two hours yesterday, adjournment being taken until this morning in order to enable the several committees to consider the large number of resolutions still in their hands. There was a lively discussion on the floor of the convention over the question of boycotting machine-made cigars. It is the same question that the Cigarmakers' International union has brought up at previous conventions of the Federation and the union has always been defeated in its fight against the introduction of machinery in the cigar trade. At the present time not a machine-made cigar in the United States, it is said, bears the label of the Cigarmakers' International union. The matter came up in the form of a resolution presented by President Gompers, John C. Dornell and Thomas F. Tracy, of the cigarmakers' union, and was referred to the committee on labels. It denounced a certain company for making cigars by child labor and machinery and calling upon the Federation to assist in unionizing the various plants of the company. The committee recommended that the word "machinery" be stricken out and the resolution adopted. Then the cigarmakers opened their fight. They insisted that the term "machinery" should not be eliminated, and argued that cigars made by machinery are not as good as those made by hand, and that machines drive hand cigarmakers out of the business. The speakers in opposition to the cigarmakers' proposition argued that to oppose machinery would be folly. Machines are being introduced in many lines of trade, it said, and the union could not successfully fight the law of progress. It was pointed out to the cigarmakers that the best thing to do was to organize the operators of the machines and adopt a wage scale, just as the typographical and other unions have done when machinery was introduced in their trades. The discussion promised to be very lengthy, but the moving of the previous question quickly ended the debate, and the resolution with the word "machinery" stricken out was adopted as recommended.

MISS STONE REPORTED ALIVE.

A Macedonian Has Brought Information of the Prison Places of Prisoners and Bandit Captors.

Sofia, Dec. 10.—According to information from Salonica, Miss Stone and Mme. Tsilka, her companion, are concealed in the vicinity of Bilo, about five miles south of Dubnitsa, in Bulgarian territory. The news was brought by a Macedonian, who left there Dec. 1 and who furnished precise information regarding the hiding places and the names of the agents supplying food for the brigands and their captives.

It is understood that the information is considered reliable enough to justify the American officials in Turkey dispatching emissaries to treat with the bandits, and that application has already been made to the Turkish government for the free passage of the emissaries across the Turkish frontier, which is vigilantly guarded by troops stationed at every hundred yards.

New York, Dec. 10.—The Rev. Henry C. Haskell, D. D., superintendent of the American board of foreign missions, stationed at Samakov, Bulgaria, cables the following to The World concerning the possible fate of Miss Stone and her companion:

"Considerable confirmation of the report that Miss Ellen M. Stone and Mrs. Tsilka are dead comes from Salonica, but nothing positive is yet known. Our (American board of foreign missions) messengers have not returned. Their delay is intelligible, for traveling over mountains covered with snow is difficult, while the brigands are now more than ever hard to get into communication with. We still hope that the report that the captives are dead may be only a ruse of the brigands to prevent being pursued."

Mrs. Frank Leslie Is Seriously Ill.

New York, Dec. 10.—Baroness De Bazus, better known in social and literary circles as Mrs. Frank Leslie, is seriously ill in her apartments in the Chelsea. It is said she is suffering with a complication of diseases.

George H. Fisher Dead.

Toledo, O., Dec. 10.—George H. Fisher, resident of the Gondron Wheel company, of this city, died suddenly of apoplexy at his apartments in the Monticello. He was 55 years old. He leaves a widow and one son.

The reason we are holding an AUCTION SALE is because we are going out of the Jewelry business as carried on in the regular way. Next year we will devote our entire attention to the INSTALLMENT BUSINESS. We are entirely through with SILVERWARE, CLOCKS, CUT GLASS, BRIC-A-BRAC, NOVELTIES, BRUSHES, MIRRORS, JEWELRY known as CARD GOODS, PINS, BROOCHES, BUTTONS, ETC., ETC., and are offering you these goods at your own price to close them out. McLAURIN IS SILENT,

When Tillman Challenges Him to Resign in the Senate.

NEITHER LEGALLY MEMBERS.

According to the View Expressed by Senator Hoar—McLaurin Previously Complained of Being Mistreated. Jones Replied.

Washington, Dec. 10.—The senate chamber was the scene of a highly dramatic episode, when Senator Tillman, of South Carolina, challenged his colleague, Senator McLaurin, to resign with him on the spot, in order, to use his own language, that they might be able "to wash their dirty linen at home." Mr. McLaurin did not take up the gauge. The incident yesterday was the direct sequel of the very bitter controversy which arose between the senators in South Carolina last spring. Mr. McLaurin arose to a question of personal privilege, and proceeded to explain what he said was a conspiracy to discredit him in his own state for acts and views which did not meet the approval of certain Democratic leaders. He declared that he was being humiliated and, according to public prints, was to be excluded from the Democratic caucus because he had acted upon certain public issues in a way which he considered was for the best interests of the country and people of his state. He announced himself a believer in the old Democracy, and after denouncing the new Democratic leaders, who, he said, had brought destruction upon the party, declared that he could not be driven from his old allegiance into a party with which he did not care to affiliate.

Denied By Jones.

Senator Jones, chairman of the Democratic national committee, denied that he had any "ulterior motives" in not inviting Mr. McLaurin to enter the caucus. Mr. Tillman reviewed the whole controversy. Mr. Hoar took occasion to express the opinion that it was very doubtful whether both the South Carolina seats in the senate were not in reality vacant. He contended that when the resignations were offered last spring to the governor they could not be withdrawn thereafter, having become immediately operative. The climax came when Senator Tillman challenged Mr. McLaurin to join with him in preparing their joint resignations and handing them to the residing officer of the senate. This challenge Mr. McLaurin did not accept, and the episode was brought to an abrupt close by Senator Lodge moving an executive session.

During the session Senator Hoar introduced the following resolution:

"That the president be requested, if he shall deem it practicable, to enter into negotiations with other civilized countries to the end that a convention may be made in accordance with the terms of which some island, or, if that cannot be done, some other suitable territory may be set apart, to which, under due precautions and after fair and proper trial, persons found guilty of attempting or instigating or counseling the overthrow of all governments, or of criminal attempts upon the life of chief magistrates or high officials of such governments, may be transported, and to which they may be confined."

TARIFF FOR THE PHILIPPINES.

Bill Prepared by Chairman Payne to Be Submitted to the Ways and Means Committee.

Washington, Dec. 10.—Chairman Payne, of the ways and means committee, presented to his Republican colleagues of the committee a revenue tariff bill for the Philippines, which he had drawn to meet the conditions of the recent supreme court decision. The Republican members of the committee met yesterday to continue the discussion of the general subject. The meeting was executive and was preliminary to a full meeting of the committee today when a Philippine tariff measure will be submitted to the Democratic members and voted upon.

The Payne bill is quite brief, with two main features—namely, applying

FIND THE MAN FOR WHOM THE LADY IS WAITING.

A DISORDERLY SCRAMBLE.

Among Bears, in Stock Market, Monday, to Cover Their Short Contracts.

New York, Dec. 10.—There was a lively shaking out of speculative long accounts in stocks Monday, accompanied by a threatening break in prices, which caused some alarm during the early hours of the day. In the afternoon there was a sudden about face in speculative sentiment, and a disorderly scramble ensued among the bears to cover their short contracts. Amalgamated Copper continued to maintain its conspicuous position, even with the increase in animation in the market Monday. The opening sales carried the stock back 1½ to 65, and this proved the low level of the day, but the demand dropped off as often as the stock approached Saturday's level, although determined support was always offered as it neared 65. The bears became alarmed at the action of the stock, and in the last hour rushed the price up to 71 in their frantic bidding against each other. The final price was but a shade lower. The support offered to Copper at the opening break prompted supporting orders elsewhere, and the market steadied momentarily, quite a list of important stocks rising a fraction over Saturday. With a rise in the call loan rate to 7 per cent, however, speculators took fright and unloaded stocks. Prices generally touched the low point of the day on this slump, although individual stocks were forced down under subsequent attacks, carrying the whole market with them back to about the low level several times. St. Paul was notably weak and fell 2½ under Saturday. Manhattan also was vigorously attacked and driven 2½ under Saturday. There was a good deal of calling of loans, but in seeking new accommodations borrowers bid the rate up upon themselves to a higher rate than was necessary, judging from subsequent developments. The ruling rates were 6 per cent, or even 5½ per cent, and there seemed ample supply at that figure. The perception of this fact emerged about the same time that Amalgamated Copper began its rally. From a general level of a point or more below Saturday's prices the market began to move upward and gained momentum. There was a slight reaction before the close, but the advance was renewed, making the closing active and strong at about the best. The Gould railroads, Manhattan, New York Central, Sugar, Pacific Mail and General Electric were all prominent in the rally, and the day closed with net gains, except in a few instances. The activity in the call loan market was reflected in the sharp drop in foreign exchange, both sterling and continental, which precluded all idea of gold exports for the present.

Railroad bonds weakened in sympathy with stocks, but became irregular later. Wabash Debentures gained nearly 2 per cent. Total sales, par value, \$5,185,000.

United States bonds were all unchanged on the last call.

Some Naval Appointments. Washington, Dec. 10.—The president nominated Medical Director William K. Van Reppen to be surgeon general and chief of the bureau of medicine and surgery; Captain Royal B. Bradford, U. S. N., chief of the bureau of equipment, with rank of rear admiral; Captain Charles O'Neill, U. S. N., chief of the bureau of ordnance, with rank of rear admiral.

CASTRO IS DEFIANT.

WILL DECLARE FREE TRADE, IF GERMANY SEIZES PORT.

If Troops March on Caracas, He Declared They Would Be Wied Out.

(Correspondence.)

Willemstadt, Island of Curacao, Nov. 30.—A merchant, thoroughly familiar with Colombian and Venezuelan politics, who has just returned from an extensive trip through both countries and who is close to President Castro, of Venezuela, talked today of the German-Venezuelan situation to the correspondent here of the Associated Press. He said:

"President Castro seems to think that Germany will not await his good pleasure for the payment by Venezuela of the interest now due on the

PRESIDENT CASTRO OF VENEZUELA.

German debt, which amounts upwards of \$2,000,000. He is considering the possibility of the seizure of the La Guayra custom house by Germany in order that this payment may be effected. In this connection President Castro told me that Germany would have to await for her money. 'I am not responsible for the debts incurred by my predecessors,' said Castro. 'This is a commercial debt and Germany should have recourse to the courts of law. And, besides, what can Germany do? If she takes the port of La Guayra I shall at once declare free trade, and every merchant may then import as much as he likes without payment of duties through the custom house seized by her.

"Or I am willing to give Germany a concession for establishing a large colony, but nothing more. If she attempts to approach Caracas, her troops will be exterminated. I would wage war against them after the manner of the Boers. Not one of them would be left. The Germans and foreigners generally have everything to lose and nothing to gain, but with war they would be despised."

Hairbrushes.

No amount of washing of the hair will keep it clean if dirty brushes are used, yet persons otherwise fairly neat are careless in this respect. A specialist says that hairbrushes should be washed once a week and, if used on hair in which there is much dandruff, twice a week is not too often. The brushes should be washed in cold, not hot, water, to which cloudy ammonia has been added in the proportion of a scant tablespoonful to a quart of water. Care should be taken not to wet the backs of the brushes, and when washed and rinsed—a good way to rinse them properly is to use a shower spray on them—they should be put on edge in the air to dry. Dress combs, too, should be frequently cleaned, a comb cleaner being used for the purpose.

Page's Climax Salve

A FAMILY BLESSING FOR 25 CENTS.

THIS SALVE IS A COMPOUND OF ARNICA AND CALENDULA, WITH MANY VEGETABLE EXTRACTS AND BALSAMS ADDED, EACH OF WHICH HAS LONG BEEN CELEBRATED FOR Subduing Pain and Inflammation, with active and most wonderful Healing Virtues.

Its action upon the system is unlike any other external remedy, as it never drives the disease to take effect on the internal organs. Its properties, when applied, go directly to the diseased part, and, as it passes into the circulation, it separates all the poisonous and corrupt humors, and attracts them through the perspiring vessels to the surface, and entirely eradicates the disease from the system. It is simply asked that the afflicted will TRY ONE BOX, the use of which will convince the most skeptical. It is warranted to cure the worst cases of corrupt humors and sores after all other remedies have failed or money refused.

Old Sores, Eczema, Chills, Burns, Piles, Ulcers, Corns, Caked Breasts, Cuts, Fistula, Scalds, Sore Nipples, Bruises, Chafes, Salt Rheum, Frosted Feet, Scalds, Boils, Galls, etc.

Ask your Druggist for Page's Climax Salve and take no other. If he has not got it or will not get it for you, it will be sent by mail on receipt of 25 Cents a Box or 5 boxes for \$1.00. Sold by all first class Druggists.

J. P. MILLS, Sole Proprietor, 193 Greenwich Street, New York City.

Invigorating

Make and drink a cup of Wright's Celery Tea each night before you go to bed. It will bring refreshing sleep, quiet irritated nerves, correct irregularities of the digestive organs, cleanse the blood of impurities, cure rheumatism. It will give you strength and vigor of body and mind and a clear, healthy complexion.

Wright's Celery Tea

contains all the medicinal properties of fresh celery combined with other natural remedies. 25c. and 50c. a box. At all druggists or sent by mail.

Y., wants more men to learn the barber trade; eight weeks completes; full set of tools presented each student; diplomas awarded; positions waiting graduates in Soldiers' Homes and City Hospitals, as well as country and city shops; we control many good jobs; can earn scholarship, board, tools and transportation if desired; write for catalogue today. 149-r

M'LAURIN IS SILENT,

When Tillman Challenges Him to Resign in the Senate.

NEITHER LEGALLY MEMBERS.

According to the View Expressed by Senator Hoar—McLaurin Previously Complained of Being Mistreated. Jones Replied.

Washington, Dec. 10.—The senate chamber was the scene of a highly dramatic episode, when Senator Tillman, of South Carolina, challenged his colleague, Senator McLaurin, to resign with him on the spot, in order, to use his own language, that they might be able "to wash their dirty linen at home." Mr. McLaurin did not take up the gauge. The incident yesterday was the direct sequel of the very bitter controversy which outarose between the senators in South Carolina last spring. Mr. McLaurin arose to a question of personal privilege, and proceeded to explain what he said was a conspiracy to discredit him in his own state for acts and views which did not meet the approval of certain Democratic leaders. He declared that he was being humiliated and, according to public prints, was to be excluded from the Democratic caucus because he had acted upon certain public issues in a way which he considered was for the best interests of the country and people of his state. He announced himself a believer in the old Democracy, and after denouncing the new Democratic leaders, who, he said, had brought destruction upon the party, declared that he could not be driven from his old allegiance into a party with which he did not care to affiliate.

Denied By Jones.

Senator Jones, chairman of the Democratic national committee, denied that he had any "ulterior motives" in not inviting Mr. McLaurin to enter the caucus. Mr. Tillman reviewed the whole controversy. Mr. Hoar took occasion to express the opinion that it was very doubtful whether both the South Carolina seats in the senate were not in reality vacant. He contended that when the resignations were offered last spring to the governor they could not be withdrawn thereafter, having become immediately operative. The climax came when Senator Tillman challenged Mr. McLaurin to join with him in preparing their joint resignations and handing them to the residing officer of the senate. This challenge Mr. McLaurin did not accept, and the episode was brought to an abrupt close by Senator Lodge moving an executive session.

During the session Senator Hoar introduced the following resolution:

"That the president be requested, if he shall deem it practicable, to enter into negotiations with other civilized countries to the end that a convention may be made in accordance with the terms of which some island, or, if that cannot be done, some other suitable territory may be set apart, to which, under due precautions and after fair and proper trial, persons found guilty of attempting or instigating or counseling the overthrow of all governments, or of criminal attempts upon the life of chief magistrates or high officials of such governments, may be transported, and to which they may be confined."

TARIFF FOR THE PHILIPPINES.

Bill Prepared by Chairman Payne to Be Submitted to the Ways and Means Committee.

Washington, Dec. 10.—Chairman Payne, of the ways and means committee, presented to his Republican colleagues of the committee a revenue tariff bill for the Philippines, which he had drawn to meet the conditions of the recent supreme court decision. The Republican members of the committee met yesterday to continue the discussion of the general subject. The meeting was executive and was preliminary to a full meeting of the committee today, when a Philippine tariff measure will be submitted to the Democratic members and voted upon.

The Payne bill is quite brief, with two main features—namely, applying

AFTER THIS

What More Can East Liverpool People Demand?

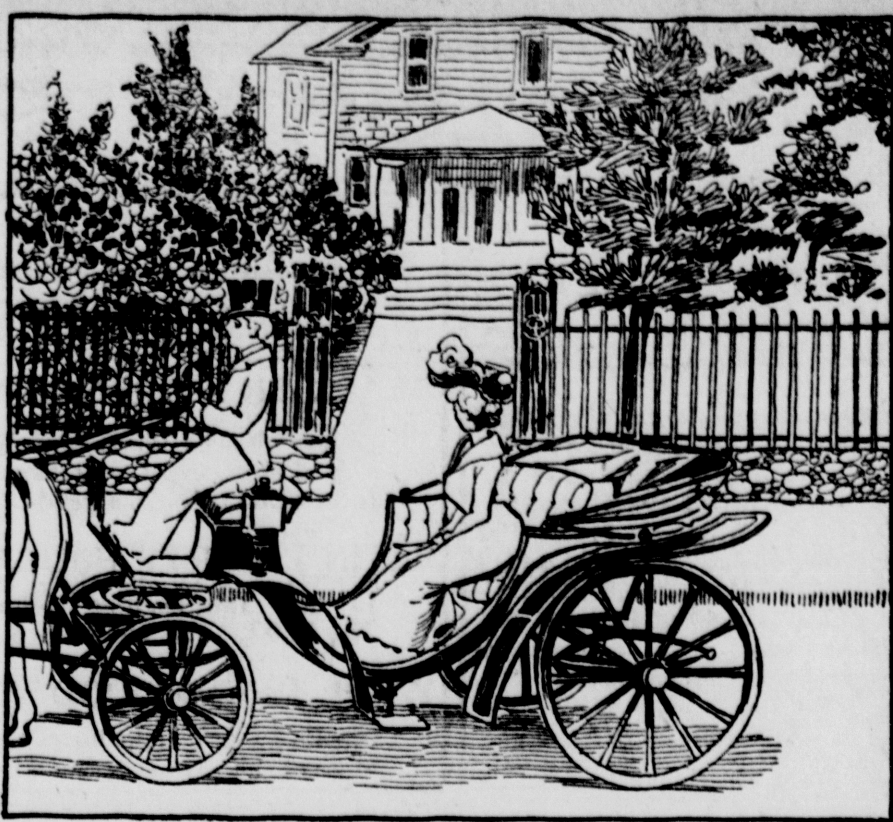

When old time residents and highly respected citizens of East Liverpool make statements like the following, they must carry conviction to every reader.

Mr. D. A. Devine, the well known Second street restaurant keeper, says: "I had occasion to use Doan's Kidney Pills for kidney complaint. Procuring them at Larkin's drug store I followed up the treatment until I had taken three boxes. They cured me. If they act with everyone else as they acted with me this preparation is up to the representations made for it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no substitute.

Sold by W. & W. Pharmacy.

FIND THE MAN FOR WHOM THE LADY IS WAITING.

The Dingley law as against goods exported from the Philippines, and the Philippine commission's tariff schedule to goods entering the Philippines. A further section grants rebate of customs tax on goods which have paid an internal revenue tax in this country. There is no provision in the measure that it shall be temporary, so that the rates if imposed would be applicable until congress otherwise acted.

FOR NEW PUBLIC BUILDINGS.

Bills Introduced For McKeesport and Butler—Other Measures.

Washington, Dec. 10.—Senator Penrose introduced in the senate yesterday a bill for a public building in Butler, to cost \$100,000; also a bill for a public building in McKeesport, to cost \$125,000; also a bill to reimburse Frank J. Burrows for \$4,022 paid by him for postage stamps stolen from the McKeesport postoffice in 1891, when he was postmaster; also a bill authorizing the court of claims for a refundment of import duties paid between 1879 and 1882 on steel blooms by a number of concerns, including Carnegie Bros. & Co., the Edgar Thompson steel works, Brown Bros. & Co., Henry W. Oliver, Jr., Lewis, Oliver & Phillips, the Cambria Steel company and the Baltimore and Ohio Railroad company; also a number of private pension and war claim bills. The senator also presented numerous petitions from various sections of the state in favor of a re-enactment of the Chinese exclusion act, against polygamy and in favor of building naval vessels in the government navy yards.

FEDERATE CATHOLIC SOCIETIES.

Important Step to Be Taken at Convention in Cincinnati.

Cincinnati, Dec. 10.—Much interest was taken here among the officers and such delegates as have arrived to arrange for the American Federation of Catholic Societies.

The permanent organization of a central commission of all the Catholic societies is regarded as one of the most important steps that has ever been taken for the church in America. While leaders say it is not proposed to interfere with the autonomy of the Hibernians, the Knights of St. John, the American Catholic Union, the German Catholic Verein, the Catholic Knights of America or any other Catholic societies, but to form a federation in which they will all be represented. There were several important conferences yesterday, but they were mostly devoted to the preparation of reports that are to be submitted to the convention today.

TREATY WAS PRESENTED.

Lodge Announced He Would Ask Consideration Today.

Washington, Dec. 10.—Senator Lodge yesterday presented to the senate in executive session the report of the committee on foreign relations, recommending favorable action upon the Hay-Pauncefote isthmian canal treaty, and gave notice that today he would ask the senate to go into executive session for the consideration of the treaty, repeating the request each day until the senate should act upon it.

The report of the committee on judiciary recommending the confirmation of Attorney General Knox was submitted, but went over until today.

Van Cott Appointed.

Washington, Dec. 10.—The president yesterday appointed Cornelius Van Cott to be postmaster at New York.

Shopping in Athens.

In his volume on "Modern Athens," George Horton says that shopping in the Greek capital is a more elaborate, time consuming and minute process even than with us. "The oriental method of doing business still prevails. The dealer sets a price, the buyer another, and often three or four hours of patient will contest pass before a compromise is reached. The patron asks, 'How much is this piece of silk?' 'One dollar a yard,' is the reply. 'Thirty cents' is offered. The merchant is thrown into something resembling an apoplectic fit. He swears by his father's soul that it cost 95 cents.

"The lady takes a seat with a sigh and after twenty minutes inquires innocently, 'Finally, 30 cents?' 'Never! But to keep you and not lose your custom, you may have it for what I paid, 95 cents.' 'You poor thing!' sighs the lady sarcastically. There are a dozen or more women sitting about the store. When finally the proprietor comes down to a price that one is willing to pay, she rises, receives her bundle and departs, declaring good naturedly that she had been swindled and that she will never come back again."

A DISORDERLY SCRAMBLE.

Among Bears, in Stock Market, Monday, to Cover Their Short Contracts.

New York, Dec. 10.—There was a lively shaking out of speculative long accounts in stocks Monday, accompanied by a threatening break in prices, which caused some alarm during the early hours of the day. In the afternoon there was a sudden about face in speculative sentiment, and a disorderly scramble ensued among the bears to cover their short contracts. Amalgamated Copper continued to maintain its conspicuous position, even with the increase in animation in the market Monday. The opening sales carried the stock back 1½ to 65, and this proved the low level of the day but the demand dropped off as often as the stock approached Saturday's level, although determined support was always offered as it neared 65. The bears became alarmed at the action of the stock, and in the last hour rushed the price up to 71 in their frantic bidding against each other. The final price was but a shade lower. The support offered to Copper at the opening break prompted supporting orders elsewhere, and the market steadied momentarily, quite a list of important stocks rising a fraction over Saturday. With a rise in the call loan rate to 7 per cent, however, speculators took flight and unloaded stocks. Prices generally touched the low point of the day on this slump, although individual stocks were forced down under subsequent attacks, carrying the whole market with them back to about the low level several times. St. Paul was notably weak and fell 2½ under Saturday. Manhattan stock was vigorously attacked and driven 2¼ under Saturday. There was a good deal of calling of loans, but in seeking new accommodations borrowers bid the rate up upon themselves to a higher rate than was necessary, judging from subsequent developments. The ruling rates were 6 per cent, or even 5½ per cent, and there seemed ample supply at that figure. The perception of this fact emerged about the same time that Amalgamated Copper began its rally. From a general level of a point or more below Saturday's prices the market began to move upward and gained momentum. There was a slight reaction before the close, but the advance was renewed, making the closing active and strong at about the best. The Gould railroad, Sugar, Pacific Mail and General Electric were all prominent in the rally, and the day closed with net gains, except in a few instances. The activity in the call loan market was reflected in the sharp drop in foreign exchange, both sterling and continental, which precluded all idea of gold exports for the present.

Railroad bonds weakened in sympathy with stocks, but became irregular later. Wabash Debentures gained nearly 2 per cent. Total sales, par value, \$5,185,000.

United States bonds were all unchanged on the last call.

Some Naval Appointments.

Washington, Dec. 10.—The president nominated Medical Director William K. Van Reypen to be surgeon general and chief of the bureau of medicine and surgery; Captain Royal B. Bradford, U. S. N., chief of the bureau of equipment, with rank of rear admiral; Captain Charles O'Neil, U. S. N., chief of the bureau of ordnance, with rank of rear admiral.

Different And Better.

Different from all others, because they contain no opium or any of its derivatives. Better than all others because they affect a cure through the Nerves and Heart. Such are Clinlic Headache Wafers when taken for the cure of a headache. The safest and most reliable remedy known. Take no other. All druggists, 10

WEATHER FORECAST.

Ohio—Fair in western, clearing in eastern portion today. Tomorrow fair, except snow along the lake; brisk northwesterly winds. Western Pennsylvania—Snow and colder today. Tomorrow probably snow; brisk northwesterly winds. West Virginia—Snow and much colder today. Tomorrow fair; northwesterly winds.

Don't Do It.

Do not take Dr. Caldwell's Syrup Pepsin unless you have Constipation, Indigestion, Sick Headache or some form of Stomach Trouble, such as Dyspepsia, Bilioussness or Heartburn, for these are what it is guaranteed to cure. Sold by W. & W. Pharmacy.

CASTRO IS DEFIANT.

WILL DECLARE FREE TRADE, IF GERMANY SEIZES PORT.

If Troops March on Caracas, He Declared They Would Be Wied Out.

(Correspondence.)

Willemstad, Island of Curacao, Nov. 30.—A merchant, thoroughly familiar with Colombian and Venezuelan politics, who has just returned from an extensive trip through both countries and who is close to President Castro, of Venezuela, talked to-day of the German-Venezuelan situation to the correspondent here of the Associated Press. He said:

"President Castro seems to think that Germany will not await his good pleasure for the payment by Venezuela of the interest now due on the

PRESIDENT CASTRO OF VENEZUELA.

German debt, which amounts upwards of \$2,000,000. He is considering the possibility of the seizure of the La Guayra custom house by Germany in order that this payment may be effected. In this connection President Castro told me that Germany would have to wait for her money. 'I am not responsible for the debts incurred by my predecessors,' said Castro. 'This is a commercial debt and Germany should have recourse to the courts of law. And, besides, what can Germany do? If she takes the port of La Guayra I shall at once declare free trade, and every merchant may then import as much as he likes without payment of duties through the custom house seized by her.

"Or I am willing to give Germany a concession for establishing a large colony, but nothing more. If she attempts to approach Caracas, her troops will be exterminated. I would wage war against them after the manner of the Boers. Not one of them would be left. The Germans and foreigners generally have everything to lose and nothing to gain, but with war they would be despised."

Hairbrushes.

No amount of washing of the hair will keep it clean if dirty brushes are used, yet persons otherwise fairly neat are careless in this respect. A specialist says that hairbrushes should be washed once a week and, if used on hair in which there is much dandruff, twice a week is not too often. The brushes should be washed in cold, not hot, water, to which cloudy ammonia has been added in the proportion of a scant tablespoonful to a quart of water. Care should be taken not to wet the backs of the brushes, and when washed and rinsed—a good way to rinse them properly is to use a shower spray on them—they should be put on edge in the air to dry. Dress combs, too, should be frequently cleaned, a comb cleaner being used for the purpose.

Dr. FENNER'S GOLDEN RELIEF
Old Sores, Wounds, Rheumatism, Neuralgia, Aches, Pains, Itch, Etc.

Page's Climax Salve

A FAMILY BLESSING FOR 25 CENTS.

THIS SALVE IS A COMPOUND OF **ARNICA AND CALENDULA**, WITH MANY VEGETABLE EXTRACTS AND BALSAMS ADDED, EACH OF WHICH HAS LONG BEEN CELEBRATED FOR **Subduing Pain and Inflammation, with active and most wonderful Healing Virtues.**

Its action upon the system is unlike any other external remedy, as it never drives the disease to take effect on the internal organs. Its properties, when applied, go directly to the diseased part, and, as it passes into the circulation, it separates all the poisonous and corrupt humors, and attracts them through the perspiring vessels to the surface, and entirely eradicates the disease from the system. It is simply asked that the afflicted will TRY ONE BOX, the use of which will convince the most skeptical. It is warranted to cure the worst cases of corrupt humors and sores after all other remedies have failed or money refused.

Old Sores, Eczema, Chills, Burns, Piles, Ulcers, Corns, Caked Breasts, Cuts, Fistula, Scrofula, Bunions, Sore Nipples, Bruises, Chafes, Boils, Itch, etc.

Ask your Druggist for Page's Climax Salve and take no other. If he has not got it or will not get it for you, it will be sent by mail on receipt of 25 Cents a Box or 5 boxes for \$1.00. Sold by all first class Druggists.

J. P. MILLS, Sole Proprietor,
193 Greenwich Street, New York City.

Invigorating

Make and drink a cup of Wright's Celery Tea each night before you go to bed.
